New MFRS and amendments/improvements to MFRSs that have been issued, but yet to be effective (Continued)

(b) The Group and the Company plan to adopt the above applicable new MFRS and amendments/improvements to MFRSs when they become effective. A brief discussion on the above significant new MFRS and amendments/improvements to MFRSs that may be applicable to the Group and the Company are summarised below.

Annual Improvements to MFRS Standards 2018-2020

Annual Improvements to MFRS Standards 2018–2020 covers amendments to:

- MFRS 1 First-time Adoption of Malaysian Financial Reporting Standards simplifies the
 application of MFRS 1 by a subsidiary that becomes a first-time adopter after its parent in
 relation to the measurement of cumulative translation differences.
- MFRS 9 Financial Instruments clarifies the fees an entity includes when assessing whether
 the terms of a new or modified financial liability are substantially different from the terms
 of the original financial liability.
- Illustrative Examples accompanying MFRS 16 Leases deletes from Illustrative Example 13
 the reimbursement relating to leasehold improvements in order to remove any potential
 confusion regarding the treatment of lease incentives.
- MFRS 141 Agriculture removes a requirement to exclude cash flows from taxation when measuring fair value thereby aligning the fair value measurement requirements in MFRS 141 with those in other MFRS Standards.

Amendments to MFRS 3 Business Combinations

The amendments update MFRS 3 by replacing a reference to an old version of the Conceptual Framework for Financial Reporting with a reference to the latest version which was issued by Malaysian Accounting Standards Board in April 2018.

Amendments to MFRS 101 Presentation of Financial Statements

The amendments include specifying that an entity's right to defer settlement of a liability for at least twelve months after the reporting period must have substance and must exist at the end of the reporting period; clarifying that classification of liability is unaffected by the likelihood of the entity to exercise its right to defer settlement of the liability for at least twelve months after the reporting period; clarifying how lending conditions affect classification of a liability; and clarifying requirements for classifying liabilities an entity will or may settle by issuing its own equity instruments.

The amendments require an entity to disclose its material accounting policy information rather than significant accounting policies. The amendments, amongst others, also include examples of circumstances in which an entity is likely to consider an accounting policy information to be material to its financial statements. To support this amendments, MFRS Practice Statement 2 was also amended to provide guidance on how to apply the concept of materiality to accounting policy information disclosures. The guidance and examples provided in the MFRS Practice Statement 2 highlight the need to focus on entity-specific information and demonstrate how the four-step materiality process can address standardised (or boilerplate) information and duplication of requirements of MFRSs in the accounting policy information disclosures.

Revenue from the Construction segment increased to RM31.06 million for the quarter under review as compared to the corresponding quarter last year of RM20.20 million. The increase in revenue was mainly attributable to the newly secured project, RYRT Lahad Datu Phase 1 Water Supply System and the accelerated work progress on the Montage project. Consequently, the Construction segment recorded a Profit Before Tax (PBT) of RM1.98 million for the current quarter as compared to a Loss Before Tax (LBT) RM0.94 million in the corresponding quarter last year.

Revenue from the Manufacturing segment decreased to RM15.99 million for the quarter as compared to RM17.36 million in the corresponding period last year. The lower revenue recorded during the quarter was mainly due to a reduction in export sales as a result of logistic constraints. The Manufacturing segment recorded a PBT of RM0.53 million for the quarter under review as compared to RM0.51 million recorded in the corresponding quarter last year mainly due to higher gross profit margin contributed by export sales.

The Group's revenue increased by 17.3% from RM40.11 million for the immediate preceding quarter to RM47.04 million for the current quarter under review. The higher revenue recorded during the quarter was mainly due to the increase in revenue from the Construction segment from RM23.22 million in the preceding quarter to RM31.06 million in the current quarter, contributed by the newly secured project i.e Lahad Datu Phase 1 Water Supply System as well as the accelerated work progress on the Montage project.

The Group recorded Profit Before Tax (PBT) of RM1.89 million in the current quarter compared to RM0.19 million in the preceding quarter.

22. Commentary on Prospects

Manufacturing

The momentum of domestic sales is expected to be sustainable into the coming quarter. However, the profit margin is uncertain due to the fluctuation of raw material costs. In conjunction with the commissioning of the new rented warehouse and infrastructure, the Group may consider expanding the range of trading products in order to generate more revenue. Notwithstanding, the general line of products shall comprise hardware or masking-tape related items.

Export sales for the coming quarter is expected to be similar to the current quarter as the factory capacity remains the same. However, the Group is conscious that the present hike in raw material prices may have an adverse impact on the profit margin of export sales .

The manufacturing operations team anticipates to receive the additional mixers in May 2022 whereby the volume of output is expected to increase by 20% from current level. The Group shall continue to optimize its current production capabilities while driving the efficiency of the manufacturing activities by minimizing wastage and other associated costs in order to maintain its competitiveness. The Group believes that consistency in product quality is a key factor in generating sustainable and recurring orders from customers.

With the above initiatives and the expected improvement in economic activities from the re-opening of markets, we are optimistic on the outlook for the coming quarter. We shall remain vigilant and identify any avenues to increase our revenues, while continuing to focus on cashflow management with more emphasis on the collection of trade receivables and the lowering of operating costs.

Construction

We anticipate the construction segment in the coming quarter to remain challenging. We have reorganized our resources internally to enhance the efficiency and productivity of the team and optimize our cash flow position.
