### 17 Current year prospects

With the number of daily cases of covid-19 infections still high in some countries including in Malaysia, the Covid-19 pandemic still remains the most significant threat to global markets and the overall economic climate. The Malaysian government has also imposed a Second Movement Control Order ("MCO 2.0") from 13 January to 18 February 2021 and further extended for several states to 4 March 2021. The Group is operating as usual, but will continue to comply strictly with the Health Ministry's guidelines and take necessary steps to ensure the impact to operations will be minimized. Despite this, the main customer's order forecast still remains strong and our new customers' projects will commence during the year, as such the Group's current year prospects remains positive. The Group is also expected to increase capital expenditure during the financial year in order to increase production capacity to meet the increase in orders.
