NOTES TO THE INTERIM FINANCIAL REPORT

1. Basis of Preparation

The interim financial report has been prepared in accordance with Malaysian Financial Reporting Standard ("MFRS") 134, Interim Financial Reporting issued by the Malaysian Accounting Standards Board ("MASB"), International Accounting Standard ("IAS") 34: Interim Financial Reporting issued by the International Accounting Standards Board ("IASB") and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Malaysia").

The interim financial report should be read in conjunction with the audited financial statements of the Group for the financial year ended 31 October 2020.

The accounting policies and methods of computation adopted by the Group in this interim financial report are consistent with those adopted in the financial statements for the financial year ended 31 October 2020 except for the adoption of the IFRS Interpretations Committee ("IFRIC")'s Agenda Decision on IAS 23 Borrowing Costs ("the Agenda Decision") and the following new amendments/improvements to MFRSs which are relevant and mandatory for the current financial year:-

| Amendments/Improvements to MFRS 3 | Business Combinations |
|--|--|
| Amendments/Improvements to MFRS 7 | Financial Instruments: Disclosures |
| Amendments/Improvements to MFRS 9 | Financial Instruments |
| Amendments/Improvements to MFRS 16 | Leases |
| Amendments/Improvements to MFRS 101 | Presentation of Financial Statements |
| Amendments/Improvements to MFRS 108 | Accounting Policies, Changes in Accounting Estimates |
| | and Errors |
| Amendments/Improvements to MFRS 139 | Financial Instruments: Recognition and Measurement |
| IFRS Interpretations Committee ("IFRIC")'s Agenda Decision on IAS 23 Borrowing Costs ("Agenda Decision") | Borrowing Costs |

The adoption of the above amendments/improvements to MFRSs do not have any material financial impact to the Group. The financial impact arising from the adoption of the Agenda Decision is discussed below.

In March 2019, IFRIC concluded that inventories, once made available for intended sale, are not qualifying assets even though they are still under construction. Accordingly, an entity should not capitalise borrowing costs on these inventories in accordance to the principles and requirements in IAS 23 (MFRS 123).

In previous financial years, borrowing costs incurred were capitalised in inventory – property under development until the physical completion of the units. On 1 November 2020, the Group has changed its accounting policy as a result of the Agenda Decision and accordingly, applied the new policy retrospectively according to the guidance set out therein.

1. Basis of Preparation (continued)

The effects of the adoption of the Agenda Decision on the consolidated statement of financial position are as follows:

(a) **3Q 2021 vs 3Q 2020**

The main projects which contributed to revenue and gross profit in 3Q 2021 were *Eco Majestic*, *Eco Forest*, and *Eco Sanctuary* in the Klang Valley, *Eco Botanic*, *Eco Botanic* 2, *Eco Spring*, *Eco Summer*, *Eco Business Park II*, *Eco Tropics* and *Eco Business Park III* in Iskandar Malaysia and *Eco Terraces* in Penang.

Despite the implementation of the Movement Control Order (MCO) 3.0 in May 2021 followed by the Full MCO (FMCO) in June 2021, revenue was only slightly lower than 3Q 2020 by 6.1%. This was mainly due to more completed or near completed properties being sold by the Group in the current quarter which enabled a higher percentage of revenue to be immediately recognised upon completion of sale of the units.

The Group's share of the results of its Malaysian joint-ventures came from *Eco Grandeur, Eco Business Park V, Eco Horizon, Eco Ardence* and *Bukit Bintang City Centre (BBCC)*. Total contributions were 30.3% lower in 3Q 2021 compared to 3Q 2020 as progress on construction sites slowed down due to restrictions imposed on site activities during MCO 3.0 and FMCO coupled with the completion of Eco Horizon's Phase 1 development in 1Q 2021.

Contributions from EcoWorld International Berhad (*EcoWorld International*) was also lower in the current quarter due to the handover of fewer units sold to customers at Yarra One and lower share of results from its UK joint venture as a result of a revision of project margins. Higher finance costs charged out following cessation of capitalisation upon completion of Yarra One & West Village also reduced profits in 3Q 2021.

Arising from the above, profit before tax for 3Q 2021 was 27% lower as compared to 3Q 2020. However, the Group's profit after tax was only 2% lower than 3Q 2020 due to the reversal of certain overprovisions for income tax in respect of prior years and deferred tax in the current quarter (see note 5 below).

1. Review of Group Performance (continued)

(b) 3Q YTD 2021 vs 3Q YTD 2020

3Q YTD 2021 revenue increased by 1.1%, however gross profit margin decreased slightly from 19.7% to 19.0% mainly due to additional incentives given to purchasers to accelerate the clearance of completed/near completion inventories.

The share of profits from the Malaysian joint-ventures in 3Q YTD 2021 is 40.5% higher than in 3Q YTD 2020. Collectively they recorded a total of RM1,039.4 million in revenue in 3Q YTD 2021 of which the Group's effective share, based on its equity stakes in the respective joint-ventures, amounted to RM523.8 million.

The Group's share of results from EcoWorld International was also higher due to higher cumulative profits contributed from the Australian projects and UK joint ventures in 3Q YTD 2021 as compared to in 3Q YTD 2020.

Overall, this has resulted in the Group's profit before tax for 3Q YTD 2021 being 42% higher as compared to 3Q YTD 2020.

2. Material Changes in the Quarterly Results compared to the Results of the Preceding Quarter

| Profit attributable to owners of the Company | 35,147 | 42,321 | (7,174) |

The Group's revenue and gross profit for 3Q 2021 were higher as compared 2Q 2021. This was mainly due to higher sales of completed or near completion products in 3Q 2021 (thus enabling a higher revenue and gross profit to be recognised in the current quarter).

Share of results of its Malaysian joint ventures was however lower than 2Q 2021 due to the reasons stated in 1(a) above.

EcoWorld International's results were also lower than 2Q 2021 due to lower share of results from its joint ventures.

The Group and its Malaysian JVs recorded sales totalling RM2.873 billion in 3Q YTD 2021. By 31 August 2021, sales increased further to RM3.110 billion, enabling the Group to surpass its full year sales target for FY2021 of RM2.875 billion.

Sales increased by more than RM1 billion in the 4 months since 2Q 2021 which enabled the Group's future revenue from its Malaysian projects to remain high at RM3.72 billion as at 31 August 2021. Including the share of the future revenue from EcoWorld International, the total share of future revenue attributable to the Group stands at RM4.1 billion as at 31 August 2021.

3. **Prospects for the Current Financial Year (continued)**

The continued strong sales momentum experienced by the Group throughout 3Q 2021, notwithstanding closure of its sales galleries since 12 May 2021 due to the nationwide MCO 3.0 and FMCO, is testament to Team EcoWorld's agility in pursuing on-line leads aggressively, supported by:

- Extensive, targeted and localised social media marketing efforts to drive better communication and engagement with homebuyers across a wide range of digital platforms;
- Active promotion of EcoWorld Malaysia's commercial and industrial products which garnered strong take-ups from business owners and investors;
- Effectiveness of the Group's digitalisation initiatives (from frontline to backroom processes) which enabled systematic follow-through with potential customers and conversion of leads into sales online.

In 3Q 2021, the EcoWorld Corporate Vaccination programme was initiated covering not just Team EcoWorld but also their family members and members of EcoWorld Malaysia's key supply chain, in particular its contractors and all their workers, both local and foreign. Over 8,000 individuals were vaccinated under this programme in line with the Government's efforts to reach the target of having 80% of the nation's population immunised in the shortest time possible.

With 100% of staff who are medically eligible for vaccination and more than 80% of site workers now fully vaccinated, all of EcoWorld Malaysia's construction sites are able to operate at full capacity, enabling the Group to catch up on work progress. The reopening of its sales galleries, subject to strict SOPs and regular Covid-19 self-testing to ensure the safety of both visitors and staff members, will also enable EcoWorld Malaysia to proceed with plans for the launch of several new phases before the end of the year.

On the financial front, the Group's continued financial discipline and commitment to achieve cost efficiencies through digitalisation and improvement of work processes have contributed positively toward profits achieved. Further, many of the Group's projects have matured with the bulk of the major infrastructure and lifestyle amenities already completed during the initial development phase - this enables higher net cashflow to be recouped from launches of each new phase within these projects. Along with substantial cash inflows being continually generated from high sales, particularly of completed and near completed stocks, there has been a steady improvement in both gross and net gearing ratios to 0.63 times and 0.51 times respectively as at 31 July 2021, as detailed in Note 7 below. Additionally, EcoWorld Malaysia's balance sheet continues to strengthen as total borrowings have been reduced from RM3.32 billion as at 31 October 2020 to RM2.99 billion as at 31 July 2021.

Moving ahead, Malaysia's rapid vaccination rate has placed the country on track to achieve the targeted 60% immunisation rate by the end of September 2021 which should enable the reopening of nearly all economic sectors based on the Government's National Recovery Plan. The Board believes that this will provide a strong boost to both consumer and business confidence going forward, thus setting the stage for an economic rebound in 2022 which EcoWorld Malaysia is well positioned to take advantage of.

Overseas, sales performance of EcoWorld International's projects in Australia and the UK continued to register improvement in 3Q 2021. EcoWorld International recorded RM338 million sales in 3Q 2021 and a further RM81 million in August 2021, bringing year-to-date sales to RM1.04 billion. This, plus reserves of RM285 million, adds up to a total of RM1,326 million as at 31 August 2021.

House prices in Inner London as at June 2021 were 2.5% higher than one year ago and demand for residential property in London, a major employment centre, is expected to recover further, driven by gradual return of workers to offices. Similarly, house prices in Sydney and Melbourne rose by 5% in the 12 months to July 2021 and whilst the recent reimposition of lockdown measures may have affected demand, sentiment should improve as the vaccination rate increases.

3. Prospects for the Current Financial Year (continued)

With regards to construction, supply chain disruption and labour shortages are causing delays and driving cost pressures in the UK construction industry. However, construction progress of the Group's active projects in London are still largely on track with most remaining projects expected to commence handover in 2021 and FY2022.

As at 31 August 2021, the Group's land bank is as follows:-

| | | Land bank (acres) | | |
|----------------------|----------------|-------------------|-------------|--|
| Location of projects | No of projects | Original land | Undeveloped | |
| | | size | | |
| Klang Valley | 8 | 4,735.3 | 2,460.4 | |
