The revenue of the Group during the quarter shows a marked improvement of 54.9% to RM14.355 millions as compared with RM9.267million in previous year's corresponding quarter. This was largely due to the significant improvements on wheat flour sales.

However, due to higher production cost as a result of higher material cost incurred during the quarter, the Group managed to secure a marginal gross profit of RM0.204 million despite with the large improvements in sales. Due to higher overhead cost, the Group has suffered a pre-tax loss of RM0.781 million albeit lower than the previous year's corresponding quarter of RM1.114 million pre-tax loss.
