B1. Review of Performance

Current Year Quarter:

The Group achieved a revenue of RM83.2 million for the quarter under review with 93% and 7% of revenue contributed by construction division and manufacturing division respectively. The revenue increased by RM7.6 million or 10% as compared to the same quarter last year.

In line with the increase in revenue, the Group generated a higher profit before tax of RM4.6 million for the quarter as compared to RM1.4 million in the same quarter last year. The increase is mainly due to contribution from higher margin projects as well as the profit contribution from the IBS segment. The increase in profit before tax is partially offset by higher payroll cost due to the introduction of the project incentive scheme as well as the increase in other operating expenses as a result of impairment loss on receivables of RM0.5 million from the polyurethane products ("PU") division.

Current Year To Date:

The Group achieved a revenue of RM147.1 million for the first half of year 2015 with 93% and 7% of revenue contributed by construction division and manufacturing division respectively. The revenue increased by RM7.3 million or 5% as compared to the same period last year.

In line with the increase in revenue, the Group generated a higher profit before tax of RM8.7 million for the first half of year 2015 as compared to RM2.8 million in the same period last year. The increase is mainly due to contribution from higher margin projects as well as the profit contribution from the IBS segment. The increase in profit before tax is partially offset by higher payroll cost and depreciation charges as well as the increase in other operating expenses as a result of impairment loss on receivables of RM0.5 million from the polyurethane products ("PU") division.

Revenue	83,240	63,817	19,423	30
Profit before tax	4,639	4,037	602	15

The increase in revenue is mainly due to higher construction activities as compared to previous quarter. In line with the increase in revenue, the profit before tax increased by RM0.6 million. The increase in profit before tax is offset by higher payroll cost due to the introduction of the project incentive scheme as well as the increase in other operating expenses as a result of
