For the financial year 2017, revenue of the Group at RM339.7 million was 40% lower and Group operating profit dropped to RM14.3 million compared with that recorded in the preceding year corresponding period. This was largely due to the lower sales of building materials, steel related products, and lower revenue from the transportation business.

Building Materials and Steel Products Division recorded a 47% lower revenue of RM251.4 million as compared with the preceding year corresponding period due to the lower demand for steel related products from the local steel mills, and building materials from the property sector.

Revenue of Lubricants, Petroleum and Automotive Products Division increased by 8% to RM81.4 million and profit was higher at RM11.3 million mainly attributable to the higher sales of lubricants.

Others include mainly the transportation business, investment holding and agriculture. These activities collectively contributed a lower revenue of RM6.8 million compared with RM12.2 million recorded a year ago largely due to the lower revenue from the transportation business. Coupled with lower interest income, this Division recorded a lower profit of RM0.6 million compared with RM5.2 million in the preceding year.

Associated companies contributed a profit of RM17.7 million largely attributable to gain which arose from the disposal of a subsidiary company in China recorded by Lion Asiapac Limited ("LAP"), a 36.7% owned associated company.

The Group recognised exceptional items totalling RM14.3 million, comprising an impairment loss on investments of RM11.0 million due to decline in quoted price and indemnity for damages arising from back pay labour claims from employees of Sabah Forest Industries Sdn Bhd ("SFI"), a former subsidiary company, against SFI and damages paid of RM3.3 million.

Overall, the Group registered a profit before tax of RM16.7 million against a loss before tax of RM379.9 million in the preceding year corresponding period which included an impairment loss on receivables of RM397.2 million.

12. <u>Material changes in the results for the current quarter compared with the immediate preceding</u> quarter

Revenue	85,497	91,584
Profit from operations	7,428	2,093
Profit before tax	11,868	2,217

For the quarter under review, revenue of the Group of RM85.5 million was 7% lower than the RM91.6 million recorded in the immediate preceding quarter largely due to the lower sales across all business segments. The profit from operations of the Group, however, increased by RM5.3 million mainly due to the higher interest income.

Associated companies contributed a profit of RM18.1 million largely attributable to gain which arose from the disposal of a subsidiary company in China recorded by LAP. As a result, the Group recorded a higher profit before tax of RM11.9 million for the quarter under review.

13. a) Prospects

The challenging operating environment is anticipated to continue in the next financial year at the back of uncertainties affecting the global and local economies. With Ringgit Malaysia and commodities prices expected to stay volatile in the near term, the property market to which the Group supplies its building materials, continue to remain soft due to low market sentiment.

Notwithstanding, the Group will remain vigilant and take proactive steps to meet these challenges by continuing to explore and identify opportunities and new growth areas including those overseas. The Group will also step up on its efforts to widen its products range and services to meet customer needs and reduce operating costs to achieve higher operating profit for the next financial year.
