The Group recorded a higher YTD Loss Before Tax ("LBT") of RM11.16 million (-12.66% YoY) was mainly due to higher realised foreign exchange ("forex") gain in 2022.

B3. PROSPECTS

i) Continuing operations

Investment Holding, Mobile, and Digital Solutions Business

The Group's subsidiary, DVSB, which is 80% owned by TAS, spearheads our mobile and digital solutions operations. As mobile technology advances at a staggering rate, Malaysia has witnessed significant development in mobile and digital communications. The high population coverage and penetration rates reflect this growth.

The Government of Malaysia acknowledges the IT sector as a crucial contributor to socio-economic growth. Consequently, they have unveiled various plans and programs to stimulate the sector and facilitate the integration of IT solutions across all enterprises. The digitalization of industries and commercial activities is anticipated to provide further impetus to the IT sector.

The COVID-19 pandemic has accelerated digitalisation globally. In response, the Malaysian Government launched the Malaysia Digital Economy Blueprint (MyDIGITAL) on 19 February 2021, which outlines a three-phase plan. Phase 1 (2021-2022) focused on solidifying Malaysia's digital adoption foundation. Phase 2 (2023-2025) prioritises inclusive digital transformation, while Phase 3 (2026-2030) envisions Malaysia as a regional leader in digital content and cybersecurity.

Many of MyDIGITAL's objectives align with the Group's business plans. Leveraging support from public agencies, the Group plans to incorporate all government digital initiatives into its strategies and actively participate in executing the MyDigital blueprint.

The Group is committed to remaining relevant to national goals by proposing innovative, risk-managed solutions, backed by robust executive capabilities. Recognising the challenges faced by those with limited digital skills in adapting to the new digital economy, the Group's key goal is to identify and assist this demographic.

The Company, through DVSB, has successfully rolled out the 'coin conversion project' known as Kocek to multiple locations in Klang Valley and continues to expand its reach. This initiative, which involves placing kiosks in selected commercial areas, allows the general public, including retailers and consumers, to exchange their Malaysian syillings (coins) for credit into their bank accounts via the Company's mobile app, 'MyPay'. Additionally, individuals can exchange coins from these kiosks. The Company earns transaction fees from the total value of coins exchanged through these kiosks.

Additionally, the Company currently operates several other services. These include the Malaysian government SMS gateway known as mySMS 15888, MyPay (a mobile application facilitating secure and efficient check-and-pay transactions with government agencies), and eJamin (a digital bail payment solution used in Malaysian criminal courts).

With further business developments in the pipeline, which the Group will announce at the appropriate time, the identified digitisation opportunities to embark on are expected to contribute positively to earnings, despite the complexities of the evolving digital world.
