# QUARTERLY REPORT FOR THE FOURTH QUARTER ENDED 31 DECEMBER 2014

# PART A - EXPLANATORY NOTES PURSUANT TO MFRS 134

# A1. BASIS OF PREPARATION`

These condensed consolidated interim financial statements are unaudited and have been prepared in accordance with MFRS 134: Interim Financial Reporting, and paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial report should be read in conjunction with the audited financial statements of the Group for the year ended 31 December 2013.

These explanatory notes attached to the condensed interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the year ended 31 December 2013.

# A2. SIGNIFICANT ACCOUNTING POLICIES

During the current financial year, the Group has adopted the following new accounting standards and interpretations (including the consequential amendments, if any):-

# MFRSs and IC Interpretations (Including The Consequential Amendments)

MFRS 10 Consolidated Financial Statements

MFRS 11 Joint Arrangements

MFRS 12 Disclosure of Interests in Other Entities

MFRS 13 Fair Value Measurement

MFRS 119 (2011) Employee Benefits

MFRS 127 (2011) Separate Financial Statements

MFRS 128 (2011) Investments in Associates and Joint Ventures

Amendments to MFRS 7: Disclosures – Offsetting Financial Assets and Financial Liabilities

Amendments to MFRS 101: Presentation of Items of Other Comprehensive Income

IC Interpretation 20 Stripping Costs in the Production Phase of a Surface Mine

Annual Improvements to MFRSs 2009 – 2011 Cycle

The adoption of the above accounting standards and interpretations (including the consequential amendments) did not have any material impact on the Group's financial statements except as follows:-

MFRS 10 replaces the consolidation guidance in MFRS 127 and IC Interpretation 112. Under MFRS 10, there is only one basis for consolidation, which is control. Extensive guidance has been provided in the standard to assist in the determination of control. There was no financial impact on the financial statement of the Group upon its initial application but may impact its future disclosures.

MFRS 13 defines fair value, provides guidance on how to determine fair value and requires disclosures about fair value measurements. The scope of MFRS 13 is broad; it applies to both financial instrument items and non-financial instrument items for which other MFRSs require or permit fair value measurements and disclosures about fair value measurements, except in specified circumstances. MFRS 13 has been applied prospectively as of the beginning of the current financial year and there was no financial impact on the financial statements of the Group upon its initial application.

# A2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

The amendments to MFRS 7 (Disclosures – Offsetting Financial Assets and Financial Liabilities) require disclosures that will enable users of an entity's financial statements to evaluate the effect or potential effect of netting arrangements, including rights of set-off associated with the entity's recognised financial assets and recognised financial liabilities, on the entity's financial position. There was no financial impact on the financial statements of the Group upon its initial application.

The amendments to MFRS 101 retain the option to present profit or loss and other comprehensive income in either a single statement or in two separate but consecutive statements. In addition, items presented in other comprehensive income section are to be grouped based on whether they are potentially re-classifiable to profit or loss subsequently i.e. those that might be reclassified and those that will not be reclassified. Income tax on items of other comprehensive income is required to be allocated on the same basis. There will be no financial impact on the financial statements of the Group upon its initial application other than the presentation format of the statements of profit or loss and other comprehensive income.

The Annual Improvements to MFRSs 2009 – 2011 Cycle contain amendments to MFRS 1, MFRS 101, MFRS 116, MFRS 132 and MFRS 134. These amendments have no material impact on the financial statements of the Group upon their initial application

The Group has not applied in advance the following accounting standards and interpretations (including the consequential amendments) that have been issued by the Malaysian Accounting Standards Board ("MASB") but are not yet effective for the current financial year:-

# A3. AUDITORS' REPORT

The auditors' report of the preceding financial year of the Group was not subject to any qualification.

# A4. SEASONAL OR CYCLICAL FACTORS

The Group's sales of fabric products are subject to seasonality effect by virtue of fabrics being a primary input material of fashion and some household products. The majority of the Group's customers are downstream players, ie mainly export-oriented garment manufacturers. As such, sales of the Group's fabric products are affected by factors such as change in fashion trends, consumer taste and surge in demand ahead of festive seasons.

Exchange rates fluctuation and the generally higher production costs (primarily contributed by higher wages and utilities costs) do impact the Group's financial performance. Consumer sentiment is another important factor that impacts the Group's earnings, given their spending pattern differs at different stages in the economic cycle, which will affect the demand for fashion products and consequently the demand over the Group's fabric products.

Nonetheless, being a relatively established player in the fabric manufacturing industry, the Group is able to ride on its competitive advantages to secure more sales in the export segment, as well as exploring new segments in the domestic market.

# QUARTERLY REPORT FOR THE FOURTH QUARTER ENDED 31 DECEMBER 2014

# PART B - EXPLANATORY NOTES PURSUANT TO THE MAIN MARKET LISTING REQUIREMENTS

# B1. REVIEW OF PERFORMANCE FOR THE CURRENT QUARTER AND FINANCIAL YEAR & CORRESPONDING QUARTER IN THE PRECEDING FINANCIAL YEAR

# REVENUE

During the current quarter, being the fourth quarter of the financial year ending 31 December 2014, the Group recorded revenue of RM42.7 million, generated from the manufacturing and sales of customized woven loom-state fabrics made from cotton, synthetic and mixed yarn.

Sales revenue decreased by RM8.33 million compared to the corresponding quarter in the preceding financial year. Export sales decreased by approximately RM4.08 million in the current quarter compared to the corresponding quarter in the previous financial year. Nonetheless, the fluctuation in the export sales revenue observed above however does not indicate any significant change in the sales and marketing direction of the Group.

The lower export sales revenue registered in the current quarter compared to the preceding year corresponding quarter is due mainly to more significant seasonality factor in the normal course of business. Both domestic and export sales segments face various challenges in the current operating environment compared to previous years when economy was much better worldwide.

# **PROFIT AFTER TAXATION**

The Group recorded profit after taxation of RM0.945 million for the current quarter.

Profit after taxation increased by RM1.393 million in the current year quarter compared to loss after taxation of RM0.448 million registered in the corresponding quarter for the financial year ended 31 December 2013. This is due to reduction in tax expense as well as finance costs (interest expense) after the Group had fully repaid its bank borrowings during the first quarter of the previous financial year.

# B2. MATERIAL CHANGE IN THE PROFIT BEFORE TAXATION FOR THE CURRENT REPORTED QUARTER AS COMPARED TO THE IMMEDIATE PRECEDING QUARTER

The Group registered a profit before taxation of RM1.183 million in the current quarter compared to loss before tax of RM0.339 million recorded in the immediate preceding quarter. The increase of RM1.522 million in profit before taxation registered in the current quarter compared to the immediate preceding quarter was due to lower allowances for impairment losses on trade receivables being made after higher collection of trade receivables and the realization of foreign exchange gain.

# B3. PROSPECTS

The Group will continue to strive for improvement in productivity, to counter challenges posed by the up-trending wages and other manufacturing overheads (eg utilities cost). In addition, the Group has also been exercising prudent costs control measures to preserve profit margin.

However, uncertainty over the recovery pace of global economy and the development of China gross domestic product growth in the coming years, economic policies, coupled with higher manufacturing overheads, especially wages and utilities, are still affecting the Group's financial performance, particularly when the Group is operating in the fast-moving consumer goods segment which its demand is largely dependent on trend and fashion.

This year, the China government is going to impose more stringent requirements on the back of environment preservation. As a result, the Group anticipates higher fuel costs resulted from the compulsory switch from coal to liquefied natural gas used in its production process.

Nonetheless, Executive Directors of the Group will definitely be working out alternatives to source cheaper natural gas supplies in order to mitigate the impact of costs on the Group's earnings.

**B4. EXPLANATORY NOTE FOR VARIANCE FROM PROFIT FORECAST OR PROFIT GUARANTEE** The Group has not provided any profit forecast or profit guarantee during the financial period ended 31 December 2014.
