#### **B1. REVIEW OF PERFORMANCE**

For the fourth quarter under review, the Group's revenue increased from RM48.8 million to RM101.5 million while the loss before tax decreased from RM20.1 million to RM10.3 million as compared to the corresponding fourth quarter of the preceding year.

The construction division recorded revenue of RM87.9 million and loss before tax of RM7.6 million as compared to the corresponding fourth quarter of the preceding year of RM34.0 million and RM20.2 million respectively. The increase in revenue was mainly due to higher progress in construction recognised for construction projects during the financial period under review. The decrease in loss before tax was mainly due to improved margins on construction projects during the current quarter as compared to the fourth quarter of the preceding year.

The concession arrangement division recorded revenue of RM11.5 million and profit before tax of RM2.7 million as compared to the corresponding fourth quarter of the preceding year of RM10.7 million and RM2.1 million respectively. The increase in revenue was mainly due to additional work performed on UiTM Tapah through the utilisation of maintenance sinking fund, resulting in higher maintenance income recognised in the current quarter. In addition, the increase in profit before tax in the current quarter was mainly due to savings in finance costs arising from the repayment of Sukuk Murabahah.

The property development division's revenue and loss before tax amounting to RM Nil and RM3.1 million as compared to the corresponding fourth quarter of the preceding year of RM2.3 million and RM0.5 million respectively. The decrease in revenue was due to no sales of completed properties during the current quarter. On the other hand, the increase in loss before tax was mainly due to the recognition of impairment losses on trade and other receivables amounting to RM2.0 million.

The investment division recorded revenue of RM2.1 million and loss before tax of RM2.3 million as compared to the corresponding fourth quarter of the preceding year of RM1.8 million and RM1.5 million respectively. The increase in revenue was mainly due to there were no longer any rebates given to tenants of investment properties impacted by the COVID-19 pandemic during the current quarter. On the other hand, the increase in loss before tax was mainly due to the recognition of fair value loss on investment properties amounting to RM1.0 million.

#### **B2.** COMPARISON WITH IMMEDIATE PRECEDING QUARTER'S RESULTS

	Current 4th Quarter RM'000	Preceding 3rd Quarter RM'000	Increase/(Decrease) RM'000 %	
Revenue	101,462	77,531	23,931	31%
Loss before tax	(10,347)	(3,701)	6,646	180%
Loss after tax	(9,487)	(3,335)	6,152	184%

For the current quarter under review, the Group recorded loss before tax and loss after tax of RM10.3 million and RM9.5 million respectively as compared to loss before tax and loss after tax of RM3.7 million and RM3.3 million respectively in the immediate preceding quarter.

The increase in revenue as compared to the third quarter of the immediate preceding quarter was mainly due to the higher progress in construction recognised for construction projects during the financial period under review. On the other hand, the increase in loss before tax and loss after tax were mainly attributable to the recognition of impairment losses on trade and other receivables (RM2.0 million), fair value loss on investment properties (RM1.0 million) and bad debts written off (RM0.5 million) during the current quarter.

#### **B3. CURRENT YEAR PROSPECT**

The Group will continue to bid actively for construction projects in order to replenish its order book. The current projects are all progressing within expectation with extension of time obtained for certain projects during the Movement Control Order period.

We expect the concession arrangement division to contribute positively to the Group with the stable income and profits generated by UiTM Tapah.

For property development division, we plan to launch Bukit Tinggi, Klang project in the first half of 2023, which will bring positive contributions to the Group for the current and next financial years. We expect that the response to our upcoming property development project in strategic location will be encouraging. In addition, we will focus on the sale of the remaining unsold units of completed properties.

The economic outlook of the construction industry in Malaysia for 2023 is expected to remain challenging, even after the COVID-19 pandemic. The Group is still facing a number of challenges, including lack of skilled labor, shortage of materials, rising costs and short-term price fluctuations of building materials. The Group will continue to focus on strengthening its financial position and implementing cost optimisation measures and effective resource planning. Notwithstanding these, with our existing order book, the Board is cautiously optimistic of the overall prospect of the Group's business and financial performance for 2023.
