Its loss before tax for the current quarter had also taken into account of inventories written down and written off. There was no financial result for the preceding year corresponding quarter following the change in the financial year end from 31 March to 30 June.

^{*} There are no comparative figures disclosed following the change in the financial year end from 31 March to 30 June.

The Group's net cash and cash equivalents decreased by RM3.2 million as of 30 September 2021, mainly attributed to net cash used in operating activities, but partially compensated by net cash from financing activities.

The net changes in cash and cash equivalents were mainly due to repayment of bill payables utilised for working capital purpose in addition to conversion of short-term bill payable to long-term term loan.

B2. Material Changes in the Loss Before Taxation for the Quarter Compared with Immediate Preceding Quarter

	Current Year Quarter 30.09.2021 (unaudited)	Immediate Preceding Quarter 30.06.2021 (unaudited)
	RM'000	RM'000
Revenue	3,897	19,581
Gross profit	1,634	7,320
Loss before tax	(1,731)	(905)

For current year quarter, the Group's revenue dropped by RM15.7 million or 80.1%, reversing from a higher base of RM19.6 million in the preceding quarter ended 30 June 2021 which was backed by the seasonally robust Hari Raya Aidilfitri festive sales. The Group's revenue for the current quarter was severely impacted by the reinstitution of nationwide full movement control order commencing 1 June 2021, leading to the temporary closure of stores, where gradual relaxations were subsequently granted by the Government on 16 August 2021 for the resumption of non-essential economy sectors under four progressive phases.

Accordingly, the Group's gross profit ("GP") decreased in line with lower revenue. Despite lower sales and GP, gross profit margin ("GP margin") for the current quarter increased to 41.9% from 37.4% in the immediately preceding quarter mainly due to lower amount of inventories written down recorded in comparison to the immediately preceding quarter. Despite significantly lower revenue, the Group's loss before tax reflected a drop of RM0.8 million from RM0.9 million recorded in the preceding quarter as its loss before tax was cushioned by other income from the Government's wage subsidy programme of RM1.4 million (30.06.2021: RM0.7 million).

B3. Commentary on Prospects

The International Monetary Fund reported, in an update to its World Economic Outlook, that the global economy is projected to grow 5.9% in 2021 and 4.9% in 2022, from a previous forecast of 6.0% mainly due to supply disruptions from advanced economies and worsening pandemic situation in developing countries. Rapid spread of Delta and the threat of new virus variants remain the key uncertainties to the outlook for global health and economic growth.

In Malaysia, the systematic reopening of its economic sectors via various stages of the National Recovery Plan and the implementation of various stimulus packages and government aid programmes have successfully paved a way in containing the pandemic, improving its global trade, stabilizing its commodity prices and boosting up the consumer and business confidence to stimulate economic activity and social stability.

In light of this, the Group is hopeful that, for the remaining period of 2021, the Malaysian economic recovery may benefit the Group's retailing business as it continues to improve the overall domestic demand, given all social and economic activities had begun to operate at full capacity and back to normality post-September 2021.

Going forward, the Group's strategies are to streamline its operations and undertake further cost reductions by shutting down unprofitable stores. The Group is also determined to explore new locations and business models to adapt to the changing market tastes, while at the same time, will continue its ongoing efforts to explore modern online business platforms, to form strategic partnerships and develop new marketing strategies to capture a greater market share and particularly, the younger demographics, so as to weather the economic impact of Covid-19 on the Group's operating margin and to improve the financial performance of the Group.
