NOTES TO INTERIM FINANCIAL REPORT FINANCIAL QUARTER ENDED 31 MARCH 2012

1. Basis of Preparation

The interim financial report is unaudited and has been prepared in accordance with FRS 134: Interim Financial Reporting and Paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad.

The preparation of an interim financial report in conformity with FRS 134: Interim Financial Reporting, requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year-to-date basis. Actual results may differ from these estimates.

The interim financial report should be read in conjunction with the audited financial statements for the financial year ended 31 December 2010. It contains unaudited condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to the understanding of the changes in the financial position and performance of the Group since the financial year ended 31 December 2010. The condensed consolidated interim financial report and notes thereon do not include all of the information required for a full set of financial statements prepared in accordance with FRSs.

2. Changes in Accounting Policies

The significant accounting policies adopted are consistent with those in the audited financial statements for the financial year ended 31 December 2010, except for the adoption of the following FRSs, IC Interpretations, Amendments to FRSs and IC Interpretations with effect from 1 January 2011:

NOTES TO INTERIM FINANCIAL REPORT FINANCIAL QUARTER ENDED 31 MARCH 2012

The principal effects of the changes in presentation, changes or methods of computation and in accounting policies resulting from the adoption of the above new FRSs, IC Interpretations and Amendments to FRSs and IC Interpretations are set out below:

FRS 3 Business Combinations (Revised 2010)

The revised FRS 3:

- allows a choice on a transaction-by-transaction basis for the measurement of non-controlling interests (previously referred to as 'minority interests') either at fair value or at the non-controlling interests' share of the fair value of the identifiable net assets of the acquiree;
- changes the recognition and subsequent accounting requirements for contingent consideration. Under the previous version of the Standard, contingent consideration was recognised at the acquisition date only if payment of the contingent consideration was probable and it could be measured reliably; any subsequent adjustments to the contingent consideration were recognised against goodwill. Under the revised Standard, contingent consideration is measured at fair value at the acquisition date; subsequent adjustments to the consideration are recognised against goodwill only to the extent that they arise from new information obtained within the measurement period (a maximum of 12 months from the acquisition date) about the fair value at the acquisition date. All other subsequent adjustments to contingent consideration classified as an asset or a liability are recognised in profit or loss;
- requires the recognition of a settlement gain or loss where the business combination in effect settles a preexisting relationship between the Group and the acquiree; and
- requires acquisition-related costs to be accounted for separately from the business combination, generally
 leading to those costs being recognised as an expense in profit or loss as incurred, whereas previously they were
 accounted for as part of the cost of the business combination.

Upon adoption, this Standard will be applied prospectively and therefore, no restatements will be required in respect of transactions prior to the date of adoption.

FRS 127 Consolidated and Separate Financial Statements (Revised 2010)

The revised Standard will affect the Group's accounting policies regarding changes in ownership interests in its subsidiary companies that do not result in a change in control. Previously, in the absence of specific requirements in FRSs, increases in interests in existing subsidiary companies were treated in the same manner as the acquisition of subsidiary companies, with goodwill or a bargain purchase gain being recognised, where appropriate; for decreases in interests in existing subsidiary companies regardless of whether the disposals would result in the Group losing control over the subsidiary companies, the difference between the consideration received and the carrying amount of the share of net assets disposed of was recognised profit or loss.

Under FRS 127 (revised), increases or decreases in ownership interests in subsidiary companies that do not result in the Group losing control over the subsidiary companies are dealt with in equity and attributed to the owners of the parent, with no impact on goodwill or profit or loss. When control of a subsidiary company is lost as a result of a transaction, event or other circumstance, FRS 127 (revised) requires that the Group derecognise all assets, liabilities and non-controlling interests at their carrying amounts. Any retained interest in the former subsidiary company is recognised at its fair value at the date when control is lost, with the resulting gain or loss being recognised in profit or loss.

Upon adoption, this Standard will be applied prospectively and therefore, no restatements will be required in respect of transactions prior to the date of adoption.

On 12 March 2012, the Company has disposed off its entire equity interest in Leweko Capital Sdn. Bhd. for a cash consideration of RM20,000.

13. Changes in Contingent Liabilities and Contingent Assets

The Group has no contingent liabilities or contingent assets since the end of the last financial year.

14. Capital Commitments

The Group has no capital commitments as at the end of the current financial quarter.

15. Performance Review

For the quarter under review, The Group's continuing operations recorded a revenue and loss before tax ("LBT") of RM3.90 million and RM14.81 million respectively as compared to a revenue of RM11.16 million and LBT of RM5.61 million in the corresponding period from January to March 2011. The loss recorded in the current quarter is mainly due to the impairment of timber concession and inventories written down in the sawn and moulded timber divison.

The sawn and moulded timber division's recorded a revenue of RM3.54 million, a decreased of 66.8% from RM10.66 million recorded in the corresponding period from January to March 2011, the lower revenue was due to the absence of logs trading activities. During the quarter under review, the Group recognised an impairment loss on timber concession and a write-down of obsolete stock amounting to RM6.71 million and RM0.78 million respectively in this division. This has resulted the LBT for this division increased from RM5.71 to RM14.29 million.

The precast concrete division registered a revenue of RM0.36 million, a decreased of 28.0% from RM0.50 million recorded in the corresponding period from January to March 2011. The lower revenue was mainly due to the lower percentage of workdone as most of the projects are at preliminary stage. LBT for this division increased to RM0.51 million as compared to RM0.01 million recorded in the corresponding period from January to March 2011 due to the higher startup costs incurred in the current quarter.

The Group has disposed off its timber flooring division on 12 March 2012. As such, the results of this division was classified under discontinued operations in the Statement of Comprehensive Income. This division recorded a net loss of RM3.87 million in the current financial quarter as compared to the net loss of RM0.62 million recorded in the corresponding period from January to March 2011.

16. Comparison of Results with Preceding Quarter

For the quarter under review, The Group's continuing operations recorded a revenue and loss before tax ("LBT") of RM3.90 million and RM14.81 million respectively as compared to a revenue of RM4.53 million and LBT of RM12.05 million in the preceding quarter.

The sawn and moulded timber division's recorded a revenue of RM3.54 million, an decreased of 15.7% from RM4.20 million recorded in the preceding quarter, the lower revenue was affected by the lower demand from European countries. LBT for this division increased by 19.8% from RM11.93 million to RM14.29 million mainly due to the recognisation of impairment loss on timber concession.

The precast concrete division registered a slight improvements in revenue from RM0.34 million to RM0.36 million recorded in the preceding quarter. However, LBT increased from RM0.17 million to RM0.51 million due to the higher startup costs incurred in the current quarter.

The Timber flooring division which was disposed during the financial quarter recorded a net loss of RM3.87 million as compared to RM1.24 million in the preceding quarter due to the write-down of obselete stock.

17. Commentary on Prospects

The performance of the Group's sawn & moulded and timber flooring division were adversely affected by the sluggish demand of tropical timber in Europe, which is the Group's largest market segment for timber products. In order to reserve its resources, the Group has disposed off its timber flooring division, which was in loss making position for the last two years, as the Board foresees the recovery of timber flooring industry is bleak and uncertain due to the on-going European sovereign debt crisis. At the meantime, the Group is planning to diversify its risk profile arising from focusing on European markets by reviewing its marketing strategy to expand its market boundaries for its sawn and moulded timber products. The Group will also continuously review its product mix and take all necessary measures to improve its productivity and efficiency.

The Group's precast concrete division has seen its order book increased in the current quarter and expected to complete a few jobs in the next quarter. The Group foresees the contributions from this division will be improved in the next

Given the above circumstances and measures taken by the Group, the Board is fairly confident the Group's performance will be improved in the near term.

18. Profit Forecast or Profit Guarantee

The disclosure requirements for explanatory notes for the variance of actual profit after tax with profit forecast and shortfall in profit guarantee are not applicable.

19. Tax (Expense)/Credit
