NOTES TO INTERIM FINANCIAL REPORT FINANCIAL QUARTER ENDED 30 JUNE 2012

1. Basis of Preparation

The interim financial report is unaudited and has been prepared in accordance with FRS 134: Interim Financial Reporting and Paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad.

The preparation of an interim financial report in conformity with FRS 134: Interim Financial Reporting, requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year-to-date basis. Actual results may differ from these estimates.

The interim financial report should be read in conjunction with the audited financial statements for the financial year ended 31 December 2010. It contains unaudited condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to the understanding of the changes in the financial position and performance of the Group since the financial year ended 31 December 2010. The condensed consolidated interim financial report and notes thereon do not include all of the information required for a full set of financial statements prepared in accordance with FRSs.

Company No. 568420-K (Incorporated in Malaysia)

NOTES TO INTERIM FINANCIAL REPORT FINANCIAL QUARTER ENDED 30 JUNE 2012

The principal effects of the changes in presentation, changes or methods of computation and in accounting policies resulting from the adoption of the above new FRSs, IC Interpretations and Amendments to FRSs and IC Interpretations are set out below:

FRS 3 Business Combinations (Revised 2010)

The revised FRS 3:

- allows a choice on a transaction-by-transaction basis for the measurement of non-controlling interests (previously referred to as 'minority interests') either at fair value or at the non-controlling interests' share of the fair value of the identifiable net assets of the acquiree;
- changes the recognition and subsequent accounting requirements for contingent consideration. Under the previous version of the Standard, contingent consideration was recognised at the acquisition date only if payment of the contingent consideration was probable and it could be measured reliably; any subsequent adjustments to the contingent consideration were recognised against goodwill. Under the revised Standard, contingent consideration is measured at fair value at the acquisition date; subsequent adjustments to the consideration are recognised against goodwill only to the extent that they arise from new information obtained within the measurement period (a maximum of 12 months from the acquisition date) about the fair value at the acquisition date. All other subsequent adjustments to contingent consideration classified as an asset or a liability are recognised in profit or loss;
- requires the recognition of a settlement gain or loss where the business combination in effect settles a pre-existing relationship between the Group and the acquiree; and
- requires acquisition-related costs to be accounted for separately from the business combination, generally leading to those costs being recognised as an expense in profit or loss as incurred, whereas previously they were accounted for as part of the cost of the business combination.

Upon adoption, this Standard will be applied prospectively and therefore, no restatements will be required in respect of transactions prior to the date of adoption.

FRS 127 Consolidated and Separate Financial Statements (Revised 2010)

The revised Standard will affect the Group's accounting policies regarding changes in ownership interests in its subsidiary companies that do not result in a change in control. Previously, in the absence of specific requirements in FRSs, increases in interests in existing subsidiary companies were treated in the same manner as the acquisition of subsidiary companies, with goodwill or a bargain purchase gain being recognised, where appropriate; for decreases in interests in existing subsidiary companies regardless of whether the disposals would result in the Group losing control over the subsidiary companies, the difference between the consideration received and the carrying amount of the share of net assets disposed of was recognised profit or loss.

Under FRS 127 (revised), increases or decreases in ownership interests in subsidiary companies that do not result in the Group losing control over the subsidiary companies are dealt with in equity and attributed to the owners of the parent, with no impact on goodwill or profit or loss. When control of a subsidiary company is lost as a result of a transaction, event or other circumstance, FRS 127 (revised) requires that the Group derecognise all assets, liabilities and non-controlling interests at their carrying amounts. Any retained interest in the former subsidiary company is recgnised at its fair value at the date when control is lost, with the resulting gain or loss being recognised in profit or loss.

Upon adoption, this Standard will be applied prospectively and therefore, no restatements will be required in respect of transactions prior to the date of adoption.

10. Valuations of Property, Plant and Equipment

There were no valuations of property, plant and equipment brought forward from the previous annual financial statements. The property, plant and equipment are stated at their historical cost less accumulated depreciation.

11. Material Events Subsequent to the End of the Current Financial Quarter

There were no material events subsequent to the end of the current financial quarter which has not been reflected in the interim financial report.

12. Changes in the Composition of the Group

On 18 July 2011, the Company has acquired two ordinary shares of RM1.00 each representing the entire equity interest in Tanah Damai Sdn. Bhd. at par for cash.

On 12 March 2012, the Company has disposed of its entire equity interest in Leweko Capital Sdn. Bhd. for a cash consideration of RM20,000.

13. Changes in Contingent Liabilities and Contingent Assets

The Group has no contingent liabilities or contingent assets since the end of the last financial year.

14. Capital Commitments

The Group has no capital commitments as at the end of the current financial quarter.

15. Performance Review

For the quarter under review, The Group recorded a revenue and loss before tax ("LBT") of RM4.94 million and RM13.58 million respectively as compared to a revenue of RM9.09 million and LBT of RM6.18 million in the corresponding period from April to June 2011. The higher LBT recorded in the current quarter was mainly due to the recognisation of impairment loss of RM7.86 million on amount owing by an associated company.

The sawn and moulded timber division recorded a revenue of RM2.49 million, a decreased of 72.6% from RM9.09 million recorded in the corresponding period from April to June 2011. The lower revenue was due to the lower logs trading activities and weak demand of timber products from European countries. However, LBT for this division improved marginally from RM5.73 to RM5.70 million despite the decreased in the revenue. This was mainly attributed to better profit margin arising from better product mix and the improvement in productivity..

The precast concrete division registered an improvement in revenue to RM2.45 million contributed by the higher workdone during the current financial quarter. There was no revenue recognised in the corresponding period from April to June 2011. This division recorded a profit before tax ("PBT") of RM0.24 million as compared to the LBT of RM0.45 million in the corresponding period from April to June 2011

16. Comparison of Results with Preceding Quarter

For the quarter under review, The Group recorded a revenue and loss before tax ("LBT") of RM4.94 million and RM13.58 million respectively as compared to a revenue of RM3.90 million and LBT of RM14.81 million in the preceding quarter.

The sawn and moulded timber division recorded a revenue of RM2.49 million, an decreased of 29.7% from RM3.54 million recorded in the preceding quarter. The lower revenue was affected by the lower demand from European countries. LBT for this division improved by 60.1% from RM14.29 million to RM5.70 million mainly due to the recognisation of impairment loss on timber concession in the previous quarter.

The precast concrete division registered an improvements in revenue to RM2.15 million from RM0.36 million recorded in the preceding quarter contributed by the higher workdone during the current financial quarter. Accordingly, this division was able to achieve PBT of RM0.24 million as compared to the LBT of RM0.51 million recorded in the preceding quarter.

17. Commentary on Prospects

The performance of the Group's sawn & moulded division was adversely affected by the sluggish demand of tropical timber in Europe, which is the Group's largest market segment for timber products. However, the division has achieved higher profit margin in the current quarter as the results of the management's effort to diversifying its market and product species. The Group will continuously review its product mix and take all necessary measures to improve its productivity and efficiency.

The Group's precast concrete division has turned into black attributed to the completion and delivery of few jobs in the current quarter. The Group's precast concrete has received encouraging respond from potential customers and is expected to contribute positively to the Group in the future.

Given the above circumstances and measures taken by the Group, the Board is fairly confident the Group's performance will be improved in the near term.

18. Profit Forecast or Profit Guarantee

The disclosure requirements for explanatory notes for the variance of actual profit after tax with profit forecast and shortfall in profit guarantee are not applicable.

19. Tax (Expense)/Credit

	Current Financial Quarter RM'000	Current Financial Year To Date RM'000
