NOTES TO INTERIM FINANCIAL REPORT FINANCIAL QUARTER ENDED 31 DECEMBER 2014

17. Commentary on Prospects

The Group operates principally in trading of logs, manufacture and sale of sawn and moulded timber; precast concrete manufacturing; and property development.

The Group's timber division had been operating in a challenging environment due to weaker European demand for tropical hardwood and increasing operational costs. The weaker demand had contributed to the decline in the past few years. The Group had implemented measures to increase revenue as well as contain costs in order to maintain its competitiveness by amongst others, employing species selection and increasing sales in its downstream activities.

To reduce the Leweko Group's reliance on a single revenue stream, the Group acquired its precast concrete business in 2010 based on Ultra-High Performance 'ductile Concrete ("UHPdC") technology, which possess very high strength and ductile and can be applied in infrastructure projects, impact structures, prestress elements and buildings. Since the acquisition, this division continuously receiving new orders over the last few years and for the immediate future, the Group plans to increase the contribution of this division.

The Group launched its first project in Ipoh during the last financial year and plans to further expand its property development activities through a proposed joint venture with Kampung Kenayat Sdn. Bhd. under the corporate exercise as announced on 28 October 2014. The Group is of the opinion that diversifying into property development would offer good growth prospect for the Group in the long term given the industry's resilience. The additional revenue to be contributed from property development will provide the company with an additional source of earnings.

Given the above circumstances and measures taken by the Group, the Board is fairly confident the Group's performance will be improved in the near term.

18. Profit Forecast or Profit Guarantee

The disclosure requirements for explanatory notes for the variance of actual profit after tax with profit forecast and shortfall in profit guarantee are not applicable.
