The lower loss before tax of RM0.04 million in last year corresponding cumulative period was due to the reversal of an impairment.

B3 Commentary on Prospects

The property market in Malaysia remains challenging. However, the re-opening of the economy with higher global growth and sustained policy support is expected to provide a further lift to economic growth. To remain competitive, our Group has aligned our new property projects in Ipoh to affordable homes where demand is still strong.

We are actively participating in tenders for both public and private projects to replenish our order book supported by our track record, experience and competitiveness in the construction sector. Our Group is optimistic that with our experience in the Penang civil engineering project, it has strengthen our market positioning and provide us a wider range of work opportunities. Our Group will also take a proactive approach to integrate environment, social and governance risk and strategies when implementing projects.

We believe that our Group will emerge stronger from the crisis while at the same time taking the necessary steps to proactively pursue disciplined cost optimisation and active capital management to strengthen our financial position.
