(iv) *FRS 139, Financial Instruments : Recognition and Measurement*

FRS 139 establishes principles for recognising and measuring financial assets, financial liabilities and some contracts to buy or sell non-financial items (collectively called financial instruments).

A financial instrument is recognised in the financial statements only when the Group becomes a party to the contractual provisions of the instrument. A financial instrument is recognised initially, at its fair value. Subsequent measurement of the financial instruments at the end of the period reflects the designation of the financial instruments.

Financial Assets

Loans and receivables

Loans and receivables category comprises debt instruments that are not quoted in an active market, trade and other receivables and cash and cash equivalents.

Financial assets categorised as loans and receivables are subsequently measured at amortised cost using the effective interest (“EIR”) method. Gains and losses arising from the derecognition of the loans and receivables, EIR amortisation and impairment losses are recognised in the statement of comprehensive income.

Financial Liabilities

All financial liabilities are subsequently measured at amortised cost other than those categorised as fair value through profit or loss.

Under the transitional provisions of FRS 139, the above changes are applied prospectively and the comparatives as at 31 December 2009 are not restated. The adoption of FRS 139 does not have any significant impact on the profit for the financial period-to-date.

B8. Status of Corporate Proposals Announced and Pending Completion

(a) Acquisition of China Smelting Plant

On 28 November 2006, the Company has entered into a sale and purchase agreement and the relevant supplemental agreements (collectively known as “SPA”) with Hubei Hashing Aluminium & Electric Co. Ltd (HHAE), Qianjiang City Qiansheng State-Owned Enterprise (QCQ) and Qianjiang City Huashin State-Owned Enterprise for the acquisition of all the assets, including non-current and current assets and certain current liabilities, excluding long-term bank borrowings, interest payable and tax liabilities of HHAE, which are located in Hubei province in the People’s Republic of China (“PRC”), for a total cash consideration of RMB 360 million (approximately RM168 million based on an exchange rate of RMB1: RM0.466).

The acquisition of the entire Assets and assumption of Certain Liabilities from HHAE has been undertaken through a company incorporated in the PRC, Hubei Press Metal Huasheng Aluminium & Electric Co. Ltd., which is 90% held by the Company whilst the remaining 10% is held by QCQ.

The Group is entitled to the revenue and profit deriving from the Hubei Smelting Plant pursuant to a sale and purchase agreement and a Custody Agreement signed with the relevant parties. The Custody Agreement allows the Group to take custody of the Hubei Smelting Plant and be entitled to revenue generated pending the finalisation of the transfer of the plant.

The Group assumed control over Hubei Smelting Plant upon making the first payment of the total purchase price. The pledge on the assets acquired has been discharged subsequently and the said assets have been transferred to HHAE during the quarter ended 30 September 2007. As such, a negative goodwill being the excess of the net fair value of the assets acquired and liabilities assumed over the cost of acquisition amounting to RM337.0 million has therefore been recognised as an income in the third quarter 2007.
