Three (3) months ended 31 March 2023

The Group reported revenue of RM28.3 million as compared to RM11.8 million in the same period of the previous year, an increase of more than 100%. The increase was due a higher revenue materialized by Telco segment.

The Group's profit before taxation stood at RM0.19 million in contrast to profit before taxation of RM2.74 million in the corresponding period of the preceding year, mainly due to Telco segment recorded a lower margin as its current on-going projects enter into the construction phase.

Information Technology

The revenue for this segment marginally increased from RM5.01 million to RM5.49 million or 9.6% for the current reporting period due to progress project milestone.

Telecommunication Services (Telco Services)

The revenue contribution from this segment is RM22.80 million, an increase of RM16.02 million from the previous year reporting period. This is mainly due to positive progress in existing project milestones.

B.2 <u>Material changes in quarterly results</u>

	Individual Current Quarter 31/03/2023	Immediate Preceding Quarter 31/12/2022	Changes
	RM '000	RM '000	(%)
Revenue	28,296	25,769	10%

Profit After Taxation & Zakat	185	29	>100%
Profit Attributable to Ordinary Equity Holders of the Parent holders of the parent	185	29	>100%

The higher PAT is attributed to higher revenue from Telco segment which also recorded a marginal margin as its current on-going projects enter into the construction phase. Additionally, operating costs for the individual current quarter has been reduced as compared to the immediate preceding year by 6% mainly due to a reduction in operating expenditure as a result of stringent cost management.

B.3 Prospects

The Group anticipates that the business and operating environment will be challenging in the forthcoming period on the back of moderate Malaysia's GDP growth which is forecasted to be between 4.0% - 5.0% for 2023 due to slower external demand as a result of weakening global trade. The Group will continuously monitor this development and impact on Group's growth prospect, while practicing stringent cost management to ensure capital is preserved for business sustainability and investment opportunities.

Telco Services is expected to continue its growth momentum in line with the Jalinan Digital Nasional's (JENDELA) positive developments despite having to navigate through nationwide labour shortage headwinds that is facing by the construction industry particularly for tower construction. Additionally, the Group is competitively positioned to capitalize on the acceleration of JENDELA project, which includes Phase 2 by leveraging on the Group appointment as the current trusted partner for the implementation of Phase 1 project. In the long run, the Group targets to position itself as a key strategic player in the national digital agenda and national rollout of the 4G/5G network developments.

For the Information Technology (IT) segment, the Group is committed to delivering its current projects within the allocated time and costs to ensure the project's profitability remains intact. IT segment is also proactively seeking new projects as part of the strategy to increase the Group's project pipeline. The segment is also focusing on growing its digital services to include 'software as a service' as well as 'device as a service' as part of its growth strategies.

Under the Group's transformation program, the Group will continue its strategic initiatives which include group-wide cost optimisation, strategic partnerships for the acquisition of new competencies, strategic supply chain management and rollout of best practices for operational policies and procedures to strengthen corporate governance.
