#### **B1. OPERATING SEGMENTS REVIEW**

#### REVIEW OF PERFORMANCE AGAINST PREVIOUS YEAR CORRESPONDING PERIOD

During the current quarter, the Group recorded a revenue of RM150.52 million, compared to RM113.95 million in the preceding year's corresponding quarter. The loss before tax was reduced to RM5.17 million compared to RM37.19 million in the preceding year's corresponding quarter.

Correspondingly, for the current year to date, revenue increased to RM583.59 million compared to RM496.07 million in the preceding year, mainly due to higher work progress of construction projects and better sales achieved for the property development projects. The profit before tax increased to RM14.47 million compared to a loss before tax of RM27.90 million in the preceding year, mainly due to a higher contribution from the Property Division in the current year coupled with lower impairments and accounting provisions compared to the preceding year.

Tabulated below are the unaudited various divisional contributions: -

#### **Construction Division**

Revenue for the current quarter increased to RM92.90 million, compared to RM58.41 million in the preceding year's corresponding quarter. The Division's loss before tax decreased to RM6.90 million compared to a loss before tax of RM25.73 million in the preceding year's corresponding quarter.

Revenue for the current year increased to RM277.35 million compared to RM249.08 million in the preceding year, mainly due to the higher work progress of certain ongoing projects. The loss before tax decreased to RM23.65 million compared to the loss before tax of RM40.98 million in the preceding year mainly due to lower impairments and accounting provisions compared to the preceding year. The loss before tax for the current year was mainly due to higher project operating costs and prolongation costs of certain construction projects.

#### **B1.** OPERATING SEGMENTS REVIEW (Continued)

#### **Property Division**

In the current quarter, revenue slightly increased to RM48.37 million compared to RM48.14 million in the preceding year's corresponding quarter. In line with that, profit before tax increased to RM6.11 million compared to RM2.30 million in the preceding year's corresponding quarter.

Revenue for the current year increased to RM270.60 million compared to RM220.38 million in the preceding year. Correspondingly, profit before tax increased to RM49.99 million compared to RM33.24 million in the preceding year. This increase was mainly due to better sales achieved and higher work progress from the development projects, coupled with the accretion of interest on trade receivables in the current financial year.

## **Utilities Division**

Revenue increased to RM9.25 million for the current quarter compared to RM7.41 million in the preceding year's corresponding quarter. The Division recorded a profit before tax of RM2.15 million compared to a loss before tax of RM15.06 million in the preceding year's corresponding quarter.

Revenue for the current year increased to RM35.65 million compared to RM26.61 million in the preceding year, mainly due to the commencement of commercial operations of the 9MW mini-hydro power plant at Lintau, Indonesia. Correspondingly, profit before tax increased to RM4.92 million compared to a loss before tax of RM10.32 million in the preceding year, mainly attributed to impairments and loss on disposal of a subsidiary in the preceding year.

## B2. MATERIAL CHANGES IN THE CURRENT QUARTER'S RESULT COMPARED TO THE PRECEDING QUARTER

	31/05/2024 RM'000	29/2/2024 RM'000	Variance %
Revenue	150,517	141,154	7
Operating profit	2,011	14,543	-86
(Loss)/Profit before interest and tax	(2,453)	9,888	>100
(Loss)/Profit before tax	(5,168)	7,076	>100
(Loss)/Profit after tax	(11,233)	6,059	>100
(Loss)/Profit attributable to equity holders			
of the Company	(9,369)	6,471	>100

The Group's revenue increased to RM150.52 million in the current quarter compared to RM141.15 million in the preceding quarter. This increase was mainly due to the higher work progress of certain construction projects. However, the Group recorded a loss before tax of RM5.17 million in the current quarter compared to a profit before tax of RM7.08 million in the preceding quarter, mainly due to unfavourable foreign exchange translation and higher project operating costs from certain construction projects in the current quarter, offset by accretion of interest on trade receivables in the preceding quarter.

#### B3. BUSINESS PROSPECT FOR THE FINANCIAL YEAR ENDING 31 MAY 2025

The Malaysian economy expanded more than initially estimated by 4.2% in the first quarter of 2024, driven by higher household spending amid continued growth in employment and wages and stronger investment activities with higher capital spending by both the private and public sectors. While most sectors registered growth, the higher growth in the construction sector was driven by the faster progress in civil engineering projects and stronger support from special trade and residential activities.

The Construction Division will continue to explore new opportunities to replenish its order book as well as focus on the timely execution and completion of on-going projects. On a positive note, the Group has secured a design and development of Klang Valley Data Centre project at Cyberjaya, Selangor Darul Eshan, which will commence work in the first quarter of FYE 2025. With the new data centre project, the Division's outstanding order book expanded to RM1.13 billion as of the reporting date.

The Property Division achieved total sales of RM274.06 million, surpassing FYE 2023 total sales by 35% despite the challenging economic environment marked by an uncertain interest rate environment and inflationary pressures. With its current unbilled sales totalling RM202.30 million and future launches, the Division is anticipated to positively impact the Group's earnings in the coming financial year. Despite the positive performance, the Group maintains a cautious and resilient approach in overseeing its ongoing development projects while strategically evaluating and pursuing new opportunities.

The Utilities Division will continue to review investment opportunities to build up its concession asset base with recurring revenue streams. The construction of the 5.9MWac solar photovoltaic energy generating facility located in Tawau, Sabah, is in progress, and this will further strengthen the revenue contribution to the Group once fully commissioned by the third quarter of FYE 2025.

The Group anticipates that the prospects and performance for FYE 2025 will be both challenging and competitive, given the volatile material prices, inflationary pressures, and high interest rates. Despite the challenging economic environment, the Group will continue to explore new business opportunities to expand and strengthen the Group's revenue, ensure timely completion of ongoing projects and implement various measures to improve operational efficiency to achieve long-term sustainable growth.

#### **B4.** PROFIT FORECAST AND PROFIT GUARANTEE

There are no profit forecasts or profit guarantees provided by the Group, and as such, this disclosure requirement is not applicable.

## **B5.** TAXATION

Taxation comprises the following:

	3 Months Ended 31/05/2024 RM'000	12 Months Ended 31/05/2024 RM'000
Income tax expense: Malaysian income tax Foreign income tax	(1,856) (814)	(9,154) (3,570)
Deferred tax	(3,395)	(1,246) (13,970)

The Group's effective tax rate (excluding the results of joint ventures, which are equity accounted net of tax) for the current quarter was higher than the statutory tax rate, mainly due to the non-recognition of deferred tax assets on unutilised tax losses of certain subsidiaries and certain expenses not deductible for tax purposes.

## **B6.** STATUS OF CORPORATE PROPOSALS ANNOUNCED

There were no pending corporate proposals.
