For the current quarter, the Group registered a steady revenue of RM82.5 million.

The Group's pre-tax profit of RM39.1 million was lower as compared to the corresponding quarter mainly due to higher operating expenses from facility fee relating to new fundings secured, sales and marketing campaign expenses as well as financing recovery activities. The Group's allowances for impairment loss on receivables was also higher primarily due to the increase in non-performing financing.

Accordingly, the Group's recorded a lower post-tax profit of RM29.1 million for the current quarter.

For the current financial year, the Group's revenue rose from RM323.6 million a year ago to RM341.7 million largely contributed by higher profit and fee income.

The Group's other income was higher at RM37.9 million mainly due to the increase in income generated from the deposits placed with various financial institutions.

The increase in revenue and other income was offset with the surge in operating and profit expense.

All-in-all, the Group posted a steady pre-tax profit of RM184.8 million and post-tax profit of RM138.8 million for the current financial year.
