FRS 7: Financial Instruments: Disclosures

Prior to the adoption of FRS 7, the disclosures of financial instruments were based on the requirements of the original FRS 132: Financial Instruments: Disclosures and Presentation. This standard requires disclosure on the nature and extent of risks arising from financial instrument which includes qualitative disclosure. The Group applied this standard prospectively in accordance with the transitional provision. This standard only affects the form and content of the disclosure in the Groups financial statements.

FRS 8: Operating Segments

FRS 8 replaces FRS 1142004 Segment Reporting and requires a "management approach", under which segment information is presented on the same basis as that used for internal reporting purposes that are regularly reviewed by the Group's chief operating decision maker. The Group presents its segment information based on its geographical segments, which is also the basis of presenting its internal management reports. The basis of measurement of operating results, segment assets and segment liabilities are the same as the basis of measurement for external reporting.

2. Changes in Accounting Policies (Cont'd)

Revised FRS 101 (2009) Presentation of Financial Statements

The revised FRS 101 requires Statement of Changes in Equity to include only transaction with owners, and all non-owner changes (i.e. other comprehensive income) are presented in a separate statement. This standard also introduces Statement of Comprehensive Income which presents all items of income and expense recognized in profit or loss and all other items of income and expensed recognized directly in equity, either in one single statement or two linked statements. The revised FRS does not have any impact on the financial position and results of the Group.

FRS 139: Financial Instruments: Recognition and Measurement

FRS 139 prescribes the principles for recognizing, derecognizing and measuring financial assets, financial liabilities, including all derivatives and certain embedded derivatives. The Group has applied this standard prospectively on 1 January 2010 in accordance with the transitional provision. The effects arising from the adoption of this standard has been accounted for by adjusting the opening balance of retained earnings as at 1 January 2010. The comparative figures have not been restated.

Prior to 1 January 2010, the Group classified its investment in quoted securities (both at overseas and in Malaysia) which were held for trading purposes as other investments in current assets. Such investments were carried at cost less allowance for diminution in value. Upon adoption of FRS 139, the investment in oversea were designated at 1 January 2010 as available-for-sale financial assets and accordingly are stated at their fair values as at that date at RM2,927,000. As at 1 January 2010, an impairment loss of RM44,000 was recognized for investments in quoted shares in Malaysia, which is now designated as financial assets held for trading, as an adjustment to the opening balance of retained earnings.

The following are the effects arising from the changes in the accounting policies as at 1 January 2010 upon the first application of FRS 139:

	As Previously Stated RM'000	Effect of FRS 139 RM'000	As Restated RM'000

(a) On 2 April 2010, the Company disposed its entire shareholdings in Unos Sdn Bhd ("UNOSSB") consisting of 100 ordinary shares of RM1.00 each, to its 55% owned subsidiary, Asialink Technology Development Limited, Hong Kong for a total cash consideration of RM58.00.

14. Performance Review (Q2 2010 : Q2 2009)

The Group recorded lower revenue of RM3.854 million for 2^{nd} quarter of 2010 compared to RM5.671 million in 2^{nd} quarter of 2009. These resulted from lower sales in both the Solutions and the Communications & Multimedia Divisions. As a result, the Group reported a loss before tax of RM1.551 million for current quarter compared to a loss before tax of RM1.374 million for 2^{nd} quarter of the previous year.

15. Comment on Material Change in Profit Before Taxation (Q2 2010: Q1 2010)

Revenue of RM3.854 million for current quarter was marginally higher than previous 1st quarter revenue of RM3.577 million. However, loss before tax was higher at RM1.551 million compared to loss of RM1.035 million for previous quarter. These were mainly due to lower sales margin and higher finance costs (banks' base lending rate rose by 25 basis points).

16. Commentary on Prospects

We have been promoting UNOS Mobile Financial Service in the region, and the response has been encouraging. The selling cycle for this product is longer than the normal as it entails full evaluation of security protocol of the system. Pilots are being planned to continue to showcase the UNOS mobile technology, and the response thus far has been very encouraging and we are confident that these will eventually lead to successful sales.

The task to seek an award from the Ministry of Education's "MBMMBI - Memartabatkan Bahasa Malaysia, Memperkukuhkan Bahasa Inggeris (Upholding Bahasa Malaysia, Strengthening English)" program is progressing well. Having successfully completed a proof-of-concept for some of the schools selected by the Ministry, we have now been selected to participate in a close bid to roll out a pilot nationwide implementation for 20 schools. A further success in the pilot will require us to then roll out the program to approximately 10,000 schools in Malaysia.

The evaluation on our proposal for the implementation of a National Disaster Management System is in progress. We look forward to the agency calling for a proof-of-concept where we are confident that we will be able to showcase our system which is based on a successful implementation in South Korea.

17. Profit Forecast or Profit Guarantee

The disclosure requirements for explanatory notes for the variance of actual profit after tax and minority interest and forecast profit after tax and minority interest and for the shortfall in profit guarantee are not applicable.

18. Income Tax Expense

Taxation comprises:

	3 months ended		6 months ended	
	30.06.2010	30.06.2009	30.06.2010	30.06.2009

- (Over)/under provision in prior year	-	-	-	-
Deferred taxation	-	-	-	-
Total income tax expense	40	3	106	110

The effective tax rate of the Group for the current quarter was higher than the statutory tax rate principally due to the losses of certain subsidiaries which can not be set off against taxable profits made by other subsidiaries, and certain expenses which are not deductible for tax purposes.
