1 January 2013

IC Interpretation 20: Stripping Costs in the Production Phase of a Surface Mine

1 January 2013

The adoption of the above standards and interpretations will have no material impact on these condensed consolidated interim financial statements of the Group, the main changes of which are discussed below:

(a) MFRS 3: Business Combinations (IFRS 3: Business Combinations issued by IASB in March 2004) and MFRS 127: Consolidated and Separate Financial Statements (IAS 27 as revised by IASB in December 2003)

An entity shall apply these earlier versions of MFRS 3 and MFRS 127 only if the entity has elected to do so as allowed in MFRS 10: Consolidated Financial Statements.

### (b) MFRS 9: Financial Instruments

MFRS 9 reflects the first phase of work on the replacement of MFRS 139: Financial Instruments – Recognition and Measurement and applies to classification and measurement of financial assets and financial liabilities as defined in MFRS 139: Financial Instruments – Recognition and Measurement. The adoption of the first phase of MFRS 9 will have an effect on the classification and measurement of the Group's financial assets. The Group will quantify the effect in conjunction with the other phases, when the final standard including all phases is issued.

### (c) MFRS 10: Consolidated Financial Statements

MFRS 10 replaces part of MFRS 127: Consolidated and Separate Financial Statements that deals with consolidated financial statements and IC Interpretations 112: Consolidation – Special Purpose Entities.

Under MFRS 10, an investor controls an investee when:

- (i) the investor has power over an investee,
- (ii) the investor has exposure, or rights, to variable returns from its involvement with the investee, and
- (iii) the investor has ability to use its power over the investee to affect the amount of the investor's returns.

### 3. Significant Accounting Policies (CONTD.)

### (c) MFRS 10: Consolidated Financial Statements (CONTD.)

Under MFRS 127: Consolidated and Separate Financial Statements, control was defined as the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

MFRS 10 includes detailed guidance to explain when an investor has control over the investee. MFRS 10 requires the investor to take into account all relevant facts and circumstances.

#### (d) MFRS 13: Fair Value Measurement

MFRS 13 establishes a single source of guidance under MFRS for all fair value measurements. MFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under MFRS when fair value is required or permitted.

# (e) Amendments to MFRS 101: Presentation of Financial Statements (Annual Improvements 2009-2011 Cycle)

The amendments to MFRS 101 change the grouping of items presented in other comprehensive income. Items that could be reclassified (or recycled) to profit or loss at a future point in time (for example, exchange differences on translation of foreign operations and net gain or loss on available for sale financial assets) would be presented separately from items which will never be reclassified (for example, actuarial gains and losses on defined benefit plans and revaluation of land and buildings). The amendments affect presentation only and have no impact on the Group's financial position and performance.

### (f) MFRS 127: Separate Financial Statements

As a consequence of the new MFRS 10 and MFRS 12, MFRS 127 is limited to accounting for subsidiaries, jointly controlled entities and associates in separate financial statements.
