B Selected Explanatory Notes to the Interim Financial Report (Part A of Appendix 9B of Bursa Malaysia's Main Market Listing Requirements

1. Performance Analysis

For 2015 third quarter, the Group recorded a 27.66% reduction in revenue to RM64.88 million compared with the corresponding period in 2014 of RM89.69 million.

The Group recorded a pre-tax loss of RM10.13 million in the current quarter as compared to a pre-tax earnings of RM5.69 million in the corresponding quarter of the previous year.

The decline in earnings resulted largely from continuing concessions given to MAS under the Settlement Agreement dated 26 February 2015. The concessions ended on 15th September 2015 when the New Catering Agreements (NCAs) terms took effect on the same date.

Performance of the respective operating segments are analysed as follow:-

In-flight catering and related services

The performance of in-flight catering and related services continued to show a decline quarter on quarter and also when compared to the corresponding quarter in the previous year. The revenue for the current quarter was lower by RM24.7 million or 28.40%, closing at RM62.28 million compared with a revenue of RM86.98 million in the corresponding quarter of the previous year.

Current quarter's segmental loss from operations was RM6.52 million compared with a profit of RM8.85 million from operations in the same quarter of the previous year. The lower revenue resulted in an operating loss arising from continuing price suppression implemented by MAS under its Recovery Plan as well as the concessions agreed with MAS under the Settlement Agreement, which eventually ended on 15th September 2015.

Food and Beverage

Performance of the F&B segment for this quarter was marginally lower than the corresponding quarter of the previous year. Revenue for the current quarter was RM562,000 which was 13.80% or RM90,000 lower than the revenue of RM652,000 on the corresponding quarter of the previous year.

Current quarter's operations continue to show a turnaround improvement with lower losses of RM255,000 against a corresponding 2014 period losses of RM645,000. This is in line with the outcome expected from the implementation of a Turnaround Plan for this segment.

Additional information required by the Bursa Malaysia's Listing Requirements

1. Performance Analysis (Cont'd)

Logistics and related services

Current quarter's revenue contributed by the logistics and related services segment remains on track. It registered RM1.96 million in revenue despite a marginal 3.11% reduction compared to RM2.02 million in the corresponding quarter of the previous year. The warehouse occupancy rate continued to remain stable.

Segmental profit for the quarter was RM 314,000 compared with the corresponding quarter profit of RM596,000 in the previous year arising from certain costs charge back by the holding company.

2. Comparison with immediate preceding quarter's result

Compared to the immediate preceding quarter's results, the Group's revenue has decreased from RM67.09 million to RM64.88 million in the third quarter of 2015.

The Group recorded a loss before tax of RM10.13 million for the current quarter as compared to loss before tax of RM8.20 million in the immediate preceding quarter. The continuing negative results in the current quarter arose from continuing concessions given to MAS which effectively ended on 15th September 2015.

3. Current year prospects

In-Flight Catering and related services

The meals volume revenue from Malaysia Airlines System Bhd (MAS) renamed as Malaysian Airline Berhad (MAB) on 1st September 2015, is expected to be consistent with the previous period. However, the profit margin from the activities will be lower under the new catering agreement (NCAs) effective from 15th September 2015. Revenue from foreign airliners are expected to remain stable.

In the adjacent market segment, we have started to operate airports lounges e.g. Emirates Lounge to generate non-airline catering revenue. We are also currently operating café outlets at private universities and providing hot meals/refreshments/beverages on board the ETS (Electronic Train System) of KTM.

Logistics and related services

The logistics segment is expected to continue its stable business trend in its warehousing services and forwarding business and is contributing positively to the Group.
