(a) Current Year 3rd Quarter (3Q2021) versus Preceding Year 3rd Quarter (3Q2020)

For the financial quarter ended 31 March 2021, the Group registered a total revenue of RM99.3 million which is about 24% lower compared to RM131.0 million in the preceding financial year corresponding quarter. The lower revenue recorded in the current financial quarter was primarily due to lower construction activities as several projects reached completion stage. Nevertheless, the Group recorded a higher PBT of RM17.4 million for current financial quarter. This represents an increase of RM15.6 million or 873% from the PBT of RM1.8 million registered in the corresponding quarter of the preceding financial year. The improvement in profit over the preceding comparative financial quarter was attributable to higher contribution from the manufacturing division and better results recorded by quoted investments.

Construction Division

The construction division recorded a lower revenue of RM89.4 million compared to RM123.5 million in the preceding financial year corresponding quarter. Consequently, PBT reduced by 10% to RM14.3 million from RM15.9 million in the last corresponding quarter. The decline was mainly due to slower construction activities as mentioned above coupled with the continuous impact of the Covid-19 pandemic that resulted in more stringent standard operating procedures imposed by authorities and clients.

Manufacturing Division

Sales from the manufacturing division grew by 32% to RM9.9 million in current financial quarter as compared to RM7.5 million in the same financial quarter last year, while PBT rose significantly by 263% to RM2.1 million from RM0.6 million recorded in the same financial quarter last year. The improvement is mainly attributable to higher sales volume and better selling prices.

(b) Current Year-to-date versus Preceding Year Corresponding Period

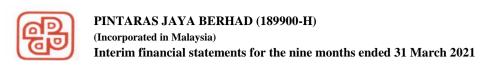

For the nine months ended 31 March 2021, the Group's revenue dipped by 22% to RM270.7 million from RM348.0 million in the preceding financial year. Despite lower revenue generated, the Group's overall PBT was higher by 64% to RM56.3 million as compared to the previous corresponding period of RM34.3 million. The improvement in profit over the preceding comparative financial period was attributable to significantly higher investment income coupled with better performance achieved by the manufacturing division.

Construction Division

The construction division recorded a lower revenue of RM243.9 and PBT of RM37.0 million as compared to the previous corresponding year of RM323.8 million and RM46.8 million respectively. The lower financial performance was mainly due to disruption of operating environment as a result of the Covid-19 pandemic.

Manufacturing Division

The manufacturing division recorded a higher revenue of RM26.8 million compared to RM24.3 million in the last financial year while PBT rose by 130% to RM4.2 million from RM1.8 million in the last financial year. The significant growth in profitability of this division is due to improved revenue in the current financial period, resulting in better cost absorption and operating efficiency.

15. Material Changes in the Quarterly Results compared to the results of the Immediate Preceding Quarter

	Current	Immediate	
	Quarter	Preceding	
		Quarter	
	31.03.2021	31.12.2020	Variance
	RM'000	RM'000	(%)
Revenue	99,304	101,039	-2%
Profit before taxation	17.448	24.849	-30%

For the 3rd financial quarter under review, the Group recorded a lower revenue and PBT of RM99.3 million and RM17.4 million, representing a decrease of 2% and 30% respectively compared to the immediate preceding quarter. The reduction was mainly due to lower contribution from the construction division as well as lower investment income over the preceding financial quarter. Contribution from the manufacturing division, however, was higher.

16. Prospects for the Current Financial Year

With the imposition of Movement Control Order 3.0 on 12th May 2021, the Board anticipates the operating environment for the Malaysian construction industry to remain weak for the fourth financial quarter. We foresee a lower availability of new construction jobs and the competitive tender environment with excess capacities will persist. Moving forward, the division will be focusing on the timely execution, cost reduction and completion of its existing order book. We are aggressively replenishing our order book to utilise capacity.

The construction sector in Singapore as a whole remains positive despite some postponements in the award of some public sector projects and developers delaying their planned roll out of new projects amidst a tough operating environment due to Covid-19. With the higher estimated construction demand by the BCA for year 2021, we are confident of our order book replenishment. However, the sector remains challenging due to continuous shortage of manpower, disruption of supply chains and higher operating costs caused by the Covid-19 pandemic.

The Group's estimated outstanding construction order book is currently worth RM320 million whereas the tender book value stands at about RM2 billion. The Board is positive on the performance of the construction division in FY2021 as the current order book is expected to support the Group's financial performance in FY2021 and beyond.

Our manufacturing business is also expected to perform better with higher selling prices although tinplate prices are on the uptrend.

The Board of Directors is of the opinion that the Group's financial results will remain profitable for the remaining financial period of the financial year ending 30 June 2021.
