

HO WAH GENTING BERHAD

Company No: 272923-H

(Incorporated In Malaysia)

**NOTES TO FINANCIAL REPORT
FOR THE FIRST QUARTER ENDED 31 MARCH 2016**

PART A

1. Basis of Preparation

The interim financial report is unaudited and has been prepared and presented in accordance with the requirements of Malaysian Financial Reporting Standard (“MFRS”) 134: Interim Financial Reporting, issued by the Malaysian Accounting Standards Board (“MASB”) and paragraph 9.22 of Bursa Malaysia Securities Berhad (“BMSB”) Listing Requirements. The interim financial report does not include all of the information required for full annual financial statements and should be read in conjunction with the Group’s audited financial statements for the year ended 31 December 2015.

2. Significant Accounting Policies

The significant accounting policies and presentation adopted for the interim financial report are consistent with those adopted in the audited financial statements for the year ended 31 December 2015 except for the adoption of the following standards which are applicable to its financial statements effective from 1 January 2016:

MFRS 14	:	Regulatory Deferral Accounts
Amendments to MFRS 11	:	Joint Arrangements - <i>Accounting for Acquisition of Interest in Joint Venture Operations</i>
Amendments to MFRS 116 and MFRS 138	:	Property, Plant and Equipment and Intangible Assets - <i>Clarification of Acceptable Methods of Depreciation and Amortisation</i>
Amendments to MFRS 116 and MFRS 141	:	Property, Plant and Equipment and Agriculture - <i>Bearer Plants</i>
Amendments to MFRS 127	:	Separate Financial Statements - <i>Equity Method in Separate Financial Statements</i>
Amendments to MFRS 10 and MFRS 128	:	Consolidated Financial Statements and Investments In Associates and Joint Ventures - <i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i>
Amendments to MFRS 10, MFRS 12 and MFRS 128	:	Consolidated Financial Statements, Disclosure of Interest in Other Entities and Investments in Associates and Joint Ventures – <i>Investment Entities: Applying the Consolidation Exception</i>
Amendments to MFRS 101	:	Presentation of Financial Statements – <i>Disclosure Initiative</i>
Annual Improvements to MFRSs 2012 – 2014 Cycle		

The adoption of the above pronouncements did not have any impact on the financial statements of the Group.

2 Significant Accounting Policies (continued)

At the date of authorisation of the Condensed Report, the following Standards were issued but not yet effective and have not been adopted by the Group:

		Effective for financial periods beginning on or after
MFRS 15	: Revenue from Contract with Customers	01 January 2018
MRFS 9	: Financial Instruments (IFRS 9 as issued by International Accounting Standards Board in July 2014)	01 January 2018

The Group will adopt the above pronouncements when they become effective in the respective financial periods. These pronouncements are not expected to have any effect to the financial statements of the Group.

3. Qualification of Financial Statements

There has not been any qualification made by the auditors on the annual financial statements of the Group for the year ended 31 December 2015.

4. Seasonality or Cyclicity of Operations

Based on past historical trend, sales of the manufacturing division, the main contributor of revenue to the Group would gradually increase in the second quarter and normally peak in the third quarter arising from increase in customer demand in anticipation of the festive seasons towards year end and subsequently, demand would slowly decline in the fourth quarter before reaching its plateau in the first quarter of the following year.

5. Unusual Nature and Amount of Items Affecting Assets, Liabilities, Equity, Net Income or Cash Flows

There were no items of unusual nature affecting the assets, liabilities, equity, net income, or cash flows of the Group during the current quarter.

PART B

ADDITIONAL INFORMATION REQUIRED BY BMSB'S LISTING REQUIREMENTS

1. Review of Performance for the first quarter and current financial period to date

For the current financial period, the Group recorded revenue of RM32.31 million and loss before taxation of RM6.09 million as compared to its preceding year's corresponding period revenue of RM49.03 million and loss before taxation of RM4.16 million. The lower loss recorded in the preceding year corresponding period included a gain on disposal of "Available-For-Sale" financial assets of RM1.86 million.

The lower revenue recorded in the current financial period is mainly due to lower sales in Moulded Power Supply Cord Sets Division in Indonesia despite the favourable currency conversion effect from USD to RM. The lower revenue in the current quarter was also due to no operating revenue generated by Tin Mining Division and the disposal of the Direct Sales Division.

The Group's Moulded Power Supply Cord Sets Division recorded operating revenue of RM30.19 million and loss before taxation of RM2.41 million for the current financial period ended 31 March 2016 as compared to its preceding year's corresponding period operating revenue of RM42.78 million and loss before taxation of RM3.34 million. The lower revenue recorded in the current financial period is due to intense competition from China-made products and constraints of fundings to provide for the working capital requirement. The lower losses recorded despite 29% drop in operating revenue were due to improved production efficiencies after the implementation of semi-automated production cycles and replacement of old machineries in stages.

The Group's Wire and Cable Trading Division posted operating revenue of RM1.31 million and loss before taxation of RM0.31 million for the current financial period ended 31 March 2016 as compared to its preceding year's corresponding period operating revenue of RM2.25 million and profit before taxation of RM99,000.

Generally, the local demand for wire and cable is slow as there were lesser new real estate projects launched.

The Group's Tin Mining Division produced 20 metric tons of tin concentrates during the current financial period ended 31 March 2016 as compared to its preceding year's corresponding period output of 30 metric tons of tin concentrates. The lower output of tin concentrate was due to low grade of tin ore recovered and reduced mining works on the site.

No operating revenue was recorded as the entire output was still kept in the inventories. For the current financial period ended 31 March 2016, the Tin Mining Division incurred a loss before taxation of RM1.18 million as compared to its preceding year's corresponding period operating revenue of RM1.03 million and loss before taxation of RM1.18 million.

1 Review of Performance for the first quarter and current financial period to date (continued)

The Group's Travel Services recorded a revenue of RM0.77 million and a loss before taxation of RM0.11 million for the financial period ended 31 March 2016 as compared to its preceding year's corresponding period operating revenue of RM0.9 million and loss before taxation of RM70,000. The lower revenue was due to more cautious consumer spending in current economic climate.

At Company level, the Company recorded a loss before taxation of RM1.44 million for the current financial period ended 31 March 2016 as compared to a profit of RM0.62 million in the preceding year's corresponding period as the Company recorded a gain on disposal of "Available-For-Sale" financial assets of RM1.92 million.

In the opinion of the Directors, other than as disclosed above, the results for the current quarter have not been affected by any transactions or events of a material or unusual nature which have arisen from 31 March 2016 to the date of issue of this quarterly report.

2. Comparison with Preceding Quarter's Results

The Group's operating revenue and loss before taxation for the current quarter under review were RM32.31 million and RM6.09 million respectively as compared to the preceding quarter's operating revenue and loss before taxation of RM41.42 million and RM6.46 million respectively.

The lower revenue recorded in the current quarter is mainly due to the seasonality of operations in Moulded Power Supply Cord Sets Division as disclosed in Note 4 of Part A and also there was no revenue generated by the Tin Mining Division for the current quarter.

The lower loss before taxation in the current quarter is mainly due to improvement in production efficiencies in the Moulded Power Supply Cord Set Division. The higher loss before taxation in the immediate preceding quarter is due to higher depreciation of RM0.94 million charged for the Tin Mining Division.

3. Commentary on Prospects

The recovery in the US economy has pushed the demand for housing market higher, improve the employment rate and higher consumer spending. All these factors may have a favourable effect to the sale of moulded power supply cord sets as US accounts for a majority of the Group's revenue.

However, the Board is of the opinion that business operations in moulded power supply cord sets and wire and cable will continue to be challenging in view of the intense competition in the US market, rising inflationary cost in Indonesia, especially the compulsory annual increment of wages and salaries, high volatility of copper price and working capital requirement.

3. Commentary on Prospects (continued)

The outlook for domestic demand would be underpinned by domestic consumption, market demand for local real estate projects, accommodative monetary policies and continued fiscal stimulus by the public sector. The Group's revenue from trading of wire and cable may be affected by lesser new property projects launched and tighter credit controls set by financial institutions as lenders are more cautious in providing the consumer loan.

The Board is hopeful that the completion of the Rights Issue with Warrants would improve the financial position of the Group.

Barring unforeseen circumstances, the Group is targeting to achieve better operating and financial performance for the financial year ending 31 December 2016.

Meanwhile, the Board will continue to explore viable, synergistic and profitable business ventures to improve the Group's performance.

4. Profit Forecast or Profit Guarantee

The Group did not issue any profit forecast or profit guarantee for the current quarter.

13. Quarterly Updates on Tin Mining Activities

On 10 June 2013, HWG Tin Mining Sdn Bhd ("HWG Tin Mining") had engaged an external exploration consultancy company to carry out resource estimation works entailing among others, evaluation of historical data, geological evaluation, geological mapping, geophysical survey, review of all existing drill data, design drill and exploration plan, field and surface sampling, laboratory chemical analysis, culminating in a resource estimation report.

The fieldwork was completed on 27 July 2013 and a copy the geological and geophysical report dated 16 August 2013 was issued. The report indicated a rough resource estimation of tin deposits and iron deposits of approximately 44,000 metric tons and 29,250,000 metric tons respectively.

The report also recommended HWG Tin Mining to undertake a deep drilling plan to determine the essential features such as the possibility of the ore body continuance, origin and type of the deposit and economic feasibility.

HWG Tin Mining has yet to engage the drilling contractor to do the drilling works as at the latest practicable date of this report.

Diluted (sen)	N/A	N/A	N/A	N/A

The diluted earnings or profit per share is calculated based on the adjusted net profit attributable to equity holders of the Company divided by the weighted average number of ordinary shares in issue during the period, adjusted to assume full conversion of all warrants into new ordinary shares.

The adjusted net loss attributable to equity holders of the Company is arrived at by adding notional interest savings as a result of repayment of bank borrowings from proceeds made available through exercise of warrants into new ordinary shares.

There was no dilution in loss per share during the current quarter and financial period ended 31 March 2016. The notional interest savings and the increase in the number of ordinary shares arising from the abovementioned conversion of all warrants, both of which would have a positive effect of reducing the loss per share for the current quarter and financial period ended 31 March 2016.
