PART B - Additional Information Required By BMSB's Listing Requirements (continued) 1. Group's Financial Performance Review And Segmental Analysis (continued)

A. Overall Review of Group's Financial Performance

The higher revenue of RM159.71 million (2017: RM156.56 million) recorded for the financial year ended 31 December 2018 was contributed by higher sales of USD3.27 million from the Moulded Power Supply Cord Sets Division in Indonesia. However, the increase in RM revenue as compared to the preceding year's corresponding period was lower due to the appreciation of RM against the USD. The average exchange rate used for financial year ended 31 December 2018 was RM4.0299/USD (2017: RM4.3175/USD).

The lower loss before taxation of RM0.64 million (2017: RM22.86 million) recorded for the financial year ended 31 December 2018 were mainly due to higher profit before taxation of RM6.82 million (2017: RM5.30 million) generated from the Moulded Power Supply Cords Set Division and lower loss before taxation of RM0.22 million (2017: RM1.67 million) in the Wire and Cable Division. The preceding year's loss before taxation of RM22.86 million included impairment losses of RM16.69 million provided in the Tin Mining Division for the mines properties, plant and machinery and fixtures and equipment. The Group had completed the disposal of the Tin Mining Division on 6 December 2018.

PART B - Additional Information Required By BMSB's Listing Requirements (continued) 1. Group's Financial Performance Review And Segmental Analysis (continued)

B. Summary of Statement of Financial Positions of the Group (continued)

The increase of RM6.80 million or 15.6% in current liabilities were mainly due to net drawdown of trade financing facility of RM10.62 million to pay down the trade payables of RM5.30 million and for purchased of inventories. Also there was tax payable provision of RM0.98 million.

The decrease of RM5.81 million or 32.2% in non-current liabilities was mainly due to reclassifications of long term borrowings of RM6.45 million into short term borrowings and after scheduled repayment to financial institutions. Other changes were additional provision for retirement benefit obligations of RM0.30 million and drawdown of a new hire purchase and finance lease facility of RM0.32 million.

The decrease was lowered by the increased in issued and paid up share capital of RM13.33 million and increase in ESOS reserve of RM0.81 million.

(Individual 4th Quarter 2018 vs Individual 4th Quarter 2017)

The lower revenue was due to the Moulded Power Supply Cords Sets Division in Indonesia which recorded lower revenue of USD8.90 million (Q4 2017: USD9.63 million) because of lower average copper rod price of USD6,496 per MT (immediate preceding year corresponding quarter: USD6,901 per MT). 4. Commentary on Prospects

The recovery in the US economy has pushed the demand for housing market higher, improved the employment rate and led to higher consumers spending. All these factors may have a favourable effect to the sale of moulded power supply cord sets as the sales to US accounts for majority of the Group's revenue.

However, the Board is of the opinion that business operations in moulded power supply cord sets and wire and cable remain challenging in view of the intense competition in the US market, rising inflationary cost in Indonesia, especially the compulsory annual increment of wages and salaries, high volatility of copper price and high working capital requirement.

To counter these unfavourable conditions, the Moulded Power Supply Cord Sets Division will continue to focus on lean manufacturing process for better operational productivity, improve efficiencies, and higher product quality in order to be more competitive and attract more customers.

The Group's 49% owned travel retail business, Dufry HWG Shopping Sdn Bhd commenced business in February 2018. The Board is hopeful that this new venture will provide additional profit from the share of operating results after tax of the associate in the near future.

Barring unforeseen circumstances, the Group is targeting to achieve better operating and financial performance for the financial year ending 31 December 2019.

Meanwhile, the Board will continue to explore viable, synergistic and profitable business ventures to improve the Group's performance.

5. Profit Forecast or Profit Guarantee

The Group did not issue any profit forecast or profit guarantee for the financial year ending 31 December 2018.
