FRS 8 : Operating Segments

FRS 8 requires segment information to be presented on a similar basis to that used for internal reporting purposes. As a result, the Group's segment report had been presented based on the internal reporting to the chief operating decision maker who makes decisions on the allocation of resources and assesses the performance of the reportable segments. This standard does not have any impact on the financial position of the Group.

FRS 101: Presentation of Financial Statements

FRS 101 requires the separation of owner and non-owner changes in equity. Therefore, the current consolidated statement of changes in equity only includes details of transactions with owners. All non-owner changes in equity, if any, will be presented as a single line labelled as total comprehensive income.

In addition, FRS 101 has introduced new title on the financial statements. Statement of Financial Position has replaced Balance Sheet, Statement of Comprehensive Income is introduced to replace Income Statement and Statement of Cash Flow has replaced Cash Flow Statement. This standard does not have any material impact on the financial position and results of the Group.

This Standard also requires a statement of financial position as at the beginning of the earliest comparative period to be presented if there are applications of retrospective restatements that are defined in FRS 108, or when there are reclassifications of items in the financial statements.

FRS 139: Financial Instruments: Recognition and Measurements

FRS 139 establishes the principles for the recognition and measurement of financial assets and financial liabilities including circumstances under which hedge accounting is permitted. The Group determines the classification at initial recognition and for the purpose of the first-time adoption of the standard, as at transitional date on 1 January 2010.

The Group categorized financial instruments as follows:

Financial Assets

Loan and receivables

Loan and receivables are initially measured at fair value and subsequently measured at amortised cost using the effective interest rate ("EIR") method. Gain and losses from the derecognition of the loan and receivables, EIR amortization and impairment losses are recognised in profit or loss.

Interim report for the quarter ended 30 June 2010
