NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENT FOR THE PERIOD ENDED 31 DECEMBER 2018

(These figures have not been audited)

1. Basis of preparation

The condensed interim financial statements are unaudited and have been prepared in accordance with the requirements of Malaysian Financial Reporting Standards ("MFRS") 134: Interim Financial Reporting issued by Malaysian Accounting Standards Board ("MASB") and paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Bhd. It should be read in conjunction with the audited consolidated financial statements of the Group for the financial year ended 31 March 2018.

In conjunction with the planned convergence of Financial Reporting Standards ("FRS") with International Financial Reporting Standards as issued by the International Accounting Standards Board, the MASB issued a new approved accounting standard framework, the MFRSs, for application in the annual periods beginning on or after 1st January 2012.

The MFRS Framework is a mandatory for adoption by all Entities Other Than Private Entities, with the exception of entities subject to the application of MFRS 141 *Agriculture* and/or IC Int 15 *Agreements for the Construction of Real Estate* ("Transitioning Entities"). The Group falls within the definition of Transitioning Entities and the financial statements for the annual period beginning on 1 April 2018 will be prepared in accordance with the MFRS and International Financial Reporting Standards.

The significant accounting policies and methods of computation adopted are consistent with those of the most recent audited financial statements for the year ended 31 March 2018 except for the adoption of new and amended FRSs, IC Interpretations and new MFRSs which are relevant to its operations and effective for the financial periods beginning on or after 1 April 2018. Comparative information in these interim financial statements have been restated to give effect to these changes and the financial impact on the transition to MFRS framework as follows:

a) Property, plant and equipment

Upon adoption of the MFRS framework, the Group has elected to change the accounting policy to measure certain leasehold lands from the revaluation model to the cost model. Hence, this will result in the revaluation amount on the transition date to be recorded as deemed costs when the Group first adopts the MFRS framework. The related revaluation surplus will be adjusted accordingly. Subsequently, these assets will be stated at cost less any accumulated depreciation and impairment

b) Biological asssets

Under the MFRS framework, biological assets that meet the definition of bearer plants will be within the scope of MFRS 116: Property, Plant and Equipment. After initial recognition, the bearer biological assets will be measured under MFRS 116 at accumulated cost. The Group is currently measuring the bearer biological assets at valuation less accumulated impairment losses after the date of valuation. Upon adoption of the MFRS framework, the Group decided to apply the cost model for accounting the bearer plants. This change in accounting framework will result in the reclassification of the bearer assets from plantation development expenditure to bearer plants and the revaluation amount on the transition date to be recorded as original costs. The related revaluation surplus will be adjusted accordingly. Subsequently be stated at cost less any accumulated depreciation and acumulated impairment losses. The amendments also require the produce that grows on bearer plants to be within the scope of MFRS141 measured at fair value less costs to sell. The plantation development expenditure of the Group comprise of the fresh fruit bunch ("FFB") prior to harvest. The changes in fair value less costs to sell of the biological assets was recognised in profit or loss.

c) Business combinations

As part of its transition to MFRS, the Group elected to apply the optional exemption not to restate those business combination that occurred before the date of transition, 1 April 2017.

Revenue Gross Profit (Loss)/Profit Before Interest and Tax (Loss)/Profit Before Tax (Loss)/Profit After Tax (Loss)/Profit Attributrable to Owner of the parent

For the current period ended 31 December 2018, the Group reported a lower revenue of RM50.2 million and loss before tax of RM10.3 million as compared with the revenue of RM62.4 million and profit before tax of RM16.1 million in the previous corresponding year.

The decrease in revenue and loss before tax as compared to the preceding year corresponding period mainly attributable to the decline in the average selling prices realised in plantation division despite of marginal increase in FFB production.

Loss Attributrable to Owner of the parent	(3,363)	(164)	(3,199)	1951%

For the current quarter ended 31 December 2018, the Group reported a lower revenue of RM18.9 million as compared with the revenue of RM19.3 million in the preceding quarter. In tandem with this, the Group registered a loss before tax of RM5.0 million as compared with profit before tax of RM0.5 million in the preceding quarter mainly due to the lower average selling prices realised for the sales of FFB in plantation division despite of marginal increase in FFB production.

3. Current year prospects

The Group's objective remains focusing on its core plantations businesses. Todate, the Group has the total oil palm plantation planted of approximately 11,000 hectares. Meanwhile, there has been continued maintenance of Acacia Mangium plantation by replanting programme.

The Board is of the opinion that the Group's performance for the remaining period of the financial year ending 31 March 2019 would be challenging based on the current lower Crude Palm Oil price as compared to prior year.
