The Condensed Consolidated Statement Of Changes In Equity should be read in conjunction with the Annual Financial Statements for the year ended 31 December 2009.

Notes to interim financial report

A. DISCLOSURE REQUIREMENTS AS PER FRS 134

1. Basis of preparation

The interim financial report is unaudited and has been prepared in accordance with the requirements of FRS 134: Interim Financial Reporting and the applicable disclosure provisions of the Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial report has been prepared in accordance with the accounting policies adopted in the 2009 annual financial statements.

The interim financial report should be read in conjunction with the audited financial statements of the Group for the year ended 31 December 2009. The explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the year ended 31 December 2009.

2. Significant accounting policies

The significant accounting policies adopted are consistent with those of the audited financial statements for the year ended 31 December 2009, except for the adoption of the following new and revised Financial Reporting Standards (“FRSs”), Amendments to FRSs and IC Interpretations with effect from 1 January 2010:

FRSs, Amendments to FRSs and IC Interpretations

FRS 4 Insurance Contracts

FRS 7 Financial Instruments: Disclosures

Revised FRS 101 (2009) Presentation of Financial Statements

Revised FRS 123 (2009) Borrowing Costs

Revised FRS 139 (2010) Financial Instruments: Recognition and Measurement

Amendments to FRS 1 and FRS 127 – Cost of an Investment in a Subsidiary, Jointly Controlled Entity or Associate

Amendments to FRS 2: Vesting Conditions and Cancellations

Amendments to FRS 7, FRS 139 and IC Interpretation 9

Amendments to FRS 132: Classification of Rights Issues and the Transitional Provision In Relation To Compound Instruments

IC Interpretation 9 Reassessment of Embedded Derivatives

IC Interpretation 10 Interim Financial Reporting and Impairment

IC Interpretation 11: FRS 2 – Group and Treasury Share Transactions

IC Interpretation 13 Customer Loyalty Programmes

IC Interpretation 14: FRS 119 – The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction

Annual Improvements to FRSs (2009)

The adoption of the above standards, amendments and interpretations has resulted in changes of certain accounting policies and classification adopted by the Group as well as presentation of financial statements as described hereunder:-

(a) FRS 101 (revised): Presentation of Financial Statements (FRS 101)

The revised standard prohibits the presentation of items of income and expenses (that is ‘non-owner changes in equity’) in the statement of changes in equity, requiring ‘non-owner changes in equity’ to be presented separately from owner changes in equity. All ‘non-owner changes in equity’ are required to be shown in a statement of comprehensive income which can be presented as a single statement or two statements (comprising the income statement and statement of comprehensive income). The Group has elected to present the statement of comprehensive income in a single statement.

(b) FRS 117: Amendment to FRS 117, Leases (FRS 117)

Leasehold land is classified as finance lease if the Group has substantially transferred all the risks and rewards incidental to ownership. Previously, leasehold land was classified as an operating lease unless title is expected to pass to the lessee at the end of the lease term. Following the amendment to FRS 117, the classification of leasehold land has been changed from operating to finance lease. The effect of the change which is adjusted for retrospectively is as follows:

| | As previously reported (RM'000) | Effect of FRS 117 (RM'000) | As restated (RM'000) |
|-------------------------------|---------------------------------------|----------------------------------|-------------------------|
| Prepaid lease payments | 4,944 | (4,944) | - |
| Property, Plant and Equipment | 86,465 | 4,944 | 91,409 |

(c) FRS 139: Financial Instruments: Recognition and Measurement (FRS 139)

The Group classifies its financial assets in the following categories: at fair value through profit or loss, receivables, held-to-maturity and available-for-sale. The classification depends on the nature of the asset and the purpose for which the asset was acquired. Management determines the classification of its financial assets at the initial recognition. Set out below are major changes in classifications of financial assets of the Group:

(i) Other receivables

Non-current receivables, previously measured at invoice amount and subject to impairment, are now classified as other receivables and measured at fair value plus transaction costs initially and subsequently, at amortised cost using the effective interest method.

When other receivables are impaired, the carrying amount of the asset is reduced and the amount of the loss is recognised in profit or loss. Impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the asset's original effective interest rate.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in profit or loss.

(ii) Available-for-sale financial assets

Non-current investments, previously measured at cost and subject to impairment, are now classified as available-for-sale financial assets. These are initially measured at fair value plus transaction costs and subsequently, at fair value.

Changes in the fair values of available-for-sale debt securities denominated in foreign currencies are analysed into currency translation differences on the amortised cost of the securities and other changes; the currency translation differences are recognised in the profit or loss and the other changes are recognised in other comprehensive income. If there is any objective evidence of impairment, the cumulative loss, measured as the difference between the acquisition cost and the current fair value, less any impairment loss previously recognised in profit or loss, is removed from equity and recognised in profit or loss. If, in a subsequent period, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss is reversed through profit or loss.

Changes in fair values of available-for-sale equity securities are recognised in other comprehensive income, together with the related currency translation differences. A significant or prolonged decline in the fair value of the security below its cost is considered as an indicator that the asset is impaired. If any such evidence exists, the cumulative loss, measured as the difference between the acquisition cost and the current fair value, less any impairment loss previously recognised in profit or loss, is removed from equity and recognised in profit or loss. Impairment losses recognised in profit or loss on equity instruments classified as available-for-sale are reversed through other comprehensive income and not through profit or loss.

When securities classified as available-for-sale are sold, the accumulated fair value adjustments recognised in other comprehensive income are included in profit or loss.

Impact on opening balances

In accordance with the transitional provisions for FRS 139, the above changes are applied prospectively and the comparatives as at 31 December 2009 are not restated. Instead, the changes have been accounted for by restating the following opening balances in the balance sheet as at 1 January 2010:

| | As previously reported (RM'000) | Effect of FRS 139 (RM'000) | As restated (RM'000) |
|---|---------------------------------------|----------------------------------|-------------------------|
| Non-Current Assets | | | |
| - Other receivables | 4,400 | (931) | 3,469 |
| - Available-for-sale financial assets | 2,459 | (1,054) | 1,405 |
| Equity | | | |
| - Available-for-sale financial assets reserve | - | (1,054) | (1,054) |
| - Retained profits | 44,993 | (931) | 44,062 |

3. Qualification of Audit Report

The audit report of the financial statements of the Group for the year ended 31 December 2009 was not qualified.

4. Seasonal or cyclical factors

Full-time students enrol for courses during certain periods of the year whereas adult learners (part-time students) do not have preference for specific intakes.

With the combination of both full-time and part-time programmes offered by the Group, the effects of seasonal or cyclical factors are minimised.

5. Nature and amount of items affecting assets, liabilities, equity, net income, or cash flows that are unusual.

There were no material unusual items affecting the assets, liabilities, equity, net income or cash flows of the Group for the financial period ended 31 March 2010.

6. Nature and amount of changes in estimates

There were no changes in estimates of amounts previously reported which have a material effect in the financial period ended 31 March 2010.

7. Issuance, cancellations, repurchases, resale and repayments of debt and equity securities

There were no cancellations, repurchases, resale and repayments of debts and equity securities during the financial period ended 31 March 2010 except the Company disposed 3,000,600 of its own ordinary shares held as treasury shares at the open market at an average price of RM1.09 per share.

As at 31 March 2010, there were no treasury shares held by the Company.

8. Dividends paid

There were no dividends paid for the quarter under review.

9. Segment reporting

The Group's turnover and profits were derived mainly from education and training activities and accordingly, no segment reporting is presented.

10. Valuations of property, plant and equipment

The valuations of land and building have been brought forward, without amendments from the previous annual report.

11. Material subsequent events

There are no material subsequent events that have not been reflected in the financial statements for the financial period ended 31 March 2010.

12. Changes in composition of the Group

There were no major changes in the composition of the Group during the financial period ended 31 March 2010.

13. Changes in contingent liabilities or contingent assets

There were no material contingent liabilities or contingent assets of the Group as at 31 March 2010.

14. Capital Commitments

There were no material capital commitments approved and contracted for as at 31 March 2010.

B. DISCLOSURE REQUIREMENTS AS PER BURSA MALAYSIA SECURITIES BERHAD LISTING REQUIREMENTS.

1. Review of performance

For the three-month period ended 31 March 2010, the Group achieved a revenue of RM54.8 million and a profit before tax of RM13.2 million, an improvement of 34.7% and 50.2% respectively, as compared to the corresponding period in 2009.

The improvement in performance is generally due to the increase in student enrolments of the Group's institutions.

2. Variation of results against preceding quarter

The Group recorded a profit before taxation and minority interest of RM13.2 million for the quarter under review compared to RM0.9 million in the preceding quarter. The increase in profitability is in line with the overall improvement in the performance of the Group.

3. Prospects for the year

The outlook of the Group for the year 2010 is expected to remain positive. The Group continues to expand its business with new and niche academic programmes and quality education.

4. Profit forecast
