B. EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

B1. Current quarter compared to the corresponding quarter of last year

The Group achieved a total revenue of RM37 million for the current quarter under review representing a decrease of RM18 million or 32.7% from RM55 million recorded in the preceding year's corresponding quarter.

It was mainly due to the decrease in revenue in the trading of minerals, which recorded a decrease in revenue of RM16.2 million or 70.4% from RM23 million to RM6.8 million in its revenue.

Revenue from manufacturing in the steel pipes segment of the current quarter compared to preceding year's corresponding quarter recorded a decrease of RM1.8 million or 5.6% from RM32 million to RM30.2 million.

For the current quarter ended 31 Mar 2016, the Group posted a profit before taxation of RM0.8 million as compared to the preceding year's corresponding profit before taxation of RM0.5 million, representing an increase of RM0.3 million or 60%. The increase in profit before tax was due to higher profit margin during the quarter as a result of higher selling prices in the steel pipes segment.

B2. Current quarter versus the preceding quarter

During the quarter under review, the Group reported a revenue of RM37 million as compared to RM32.5 million in the preceding quarter.

The Group's revenue during the current quarter had increased by RM4.5 million or 13.9%. It was mainly attributable to an increase in trading of minerals for the current quarter compared to the preceding quarter, which recorded an increase of RM3 million or 79% from RM3.8 million to RM6.8 million in its revenue.

Revenue from manufacturing of steel pipes segment of the current quarter compared to preceding quarter recorded an increase of RM1.5 million or 5.2% from RM28.7 million to RM30.2 million.

Our Group's reported profit before tax amounting RM0.8 million in the current quarter as compared to a loss before tax of RM2.9 million in the preceding quarter. This represents an increase of RM3.7 million or 127.5% in the current quarter. The improvement was mainly due to higher selling price in both steel and minerals segments.

B3. Prospects

In view of the challenging environment arising from the ongoing uncertainties of the global economy, including volatility of foreign currencies and oil prices, lower mineral prices and steep drop of steel prices due to influx of cheap steel from China, we expect the business environment for the manufacturing and trading of steel products to be challenging.

In spite of a challenging environment, the demand for minerals remains stable. Hence the management is positive that the trading of minerals segment will contribute positive results albeit depressed margin.

On the assumption that this environment will persist, the Board is hoping to achieve an improvement in the performance of the Group for the quarter ahead. There is a shortage in the market today for hot and cold-rolled raw materials because Malaysia had imposed anti-dumping duties on steel coil product such as hot-rolled coil (HRC) and cold-rolled coil (CRC) from China, Indonesia, and Vietnam. However, in view of the pricing pressure, the Group does not expect to record exceptional results.

B4. Profit Forecast

Not applicable as no profit forecast was issued.

B5. Tax Expense

	Current	Quarter	Cumulative Quarter		
	3 months en	nded 31 Mar	3 months ended 31 Mar

- Prior year tax	54	37	54	37	
- Deferred tax	0	0	0	0	
Total tax expense	54	36	54	36	

Income tax is calculated at the Malaysia statutory tax rate of 24% of the estimated assessable profit for the year.

The effective tax rate is lower than the statutory tax rate due to the tax incentive of certain subsidiaries.

The Budget 2014 announced on October 25, 2013 reduces the corporate income tax rate from 25% to 24% with effect from year of assessment 2016. The real property gains tax ("RPGT") is also revised to 30% for disposal within the first three years, 20% within the fourth year, 15% within the fifth year and 5% from sixth year onwards, on gains from the disposal of real property effective January 1, 2014. Following these, the applicable tax rates to be used for the measurement of any applicable deferred tax will be the respective expected rates.
