The Group recorded a 3.3% decrease in revenue to RM 39.6 million for the 4th quarter ended 30 June 2021 from RM 40.9 million in the corresponding quarter last year. The decrease in turnover was mainly due to lower sales from the oversea subsidiary in current quarter under review.

The Group recorded a profit before tax of RM0.5 million as compared to a loss before tax of RM4.2 million generated in the corresponding quarter last year, which was mainly contributed from improved operational efficiency and lower operating expenses in implementing cost saving exercise coupled with absence of provision for credit loss on trade and other receivables and inventory obsolescence in the corresponding quarter last year as well as higher profit achieved by the oversea subsidiary.

The Group recorded a 4.2% increase in revenue to RM 39.6 million for the 4th quarter ended 30 June 2021 from RM 38.0 million in the preceding quarter. The increase in turnover was mainly due to aggressive sales performance from the oversea subsidiary in current quarter under review.

For the current quarter under review, the Group recorded a profit before tax of RM0.5 million as compared to RM 1.1 million generated in the preceding quarter despite of higher revenue in current quarter, which was mainly due to higher operating cost by the biscuit division as production was shutdown for installation of new production line as well as the rise of raw material prices and freight charges in shipment.
