15. Review of earnings and / or revenue of the Company and its subsidiaries for current quarter and financial year-to-date

	3 months ended 30/06/2023 RM'000	3 months ended 30/06/2022 RM'000
Revenue =	37,527	40,902
(Loss)/ profit before tax	(38,557)	258

The Group recorded a 8.2% decrease in revenue to RM37.5 million for the 4th quarter ended 30 June 2023 from RM40.9 million in the corresponding quarter last year. The reduction in revenue was mainly due to lower demand in the current quarter under review.

The Group recorded loss before tax of RM38.6 million compared to profit before tax of RM0.2 million generated in the corresponding quarter last year. The loss before tax was mainly due to decommissioning of Bukit Minyak production facility in line with the business rationalisation plan. This resulted in a one-off impairment of the plant's fixed assets, provision allowance of inventories obsolescence and staff retrenchment cost. This coupled with the continuous higher input cost and the effect of a weakening Ringgit Ringgit were also contributing factors to the loss.

16. Material change in Loss Before Taxation reported on as compared with the immediate preceding quarter

	3 months ended 31/06/2023 RM'000	3 months ended 31/03/2023 RM'000
Revenue	37,527	36,077
Loss before tax	(38,557)	(1,593)

The Group recorded a 4.0% increase in revenue to RM37.5 million for the 4th quarter ended 30 June 2023 from RM36.0 million in the preceding quarter. The increase in turnover was due to higher sales from the local subsidiary offset by lower revenue in the oversea subsidiary.

Despite the higher revenue, the Group's loss before tax of RM38.6 million was mainly due to the one-off impairment of the plant's fixed assets, provision allowance of inventories obsolescence and staff retrenchment cost following the decommissioning plan of Bukit Minyak Production facility. The weakening of the Ringgit and escalation of input cost were also factors contributing to the loss.

17. Current year prospects

The Group expects the next 6 months to remain challenging due to uncertainty in the commodity market, weakening of the Ringgit and inflationary pressures on input cost impacting on consumer demand.

With the implementation of the business rationalisation plan, the Group expects to improve the financial position moving forward.

The Group will further explore outsourcing certain products to third parties and continue to invest in our brands & product innovation to drive sustainable growth.
