15. Review of earnings and / or revenue of the Company and its subsidiaries for current quarter and financial period-to-date

	3 months ended 31/12/2024 RM'000	3 months ended 31/12/2023 RM'000
Revenue	31,414	29,593
Loss before tax	(2,904)	(1,054)

The Group recorded a 6.2% increase in revenue to RM31.4 million for the 2nd quarter ended 31 Dec 2024 from RM29.6 million in the corresponding quarter last year. The increase in revenue was mainly due to stronger demand from oversea's market of Indonesia subsidiary during the quarter under review.

Despite of the higher revenue, the Group recorded loss before tax of RM2.9 million compared to loss before tax of RM1.1 million incurred in the corresponding quarter last year. The loss was mainly due to the one-off provision of staff termination benefit and allowance for obsolete & slow-moving inventories in this quarter.

16. Material change in Profit/(Loss) Before Taxation reported on as compared with the immediate preceding quarter

	3 months ended 31/12/2024 RM'000	3 months ended 30/09/2024 RM'000
Revenue	31,414	41,233
Profit/(Loss) before tax	(2,904)	14,126

The Group recorded a reduction of 23.8% in revenue to RM31.4 million for the 2nd quarter ended 31 Dec 2024 from RM41.2 million in the preceding quarter. The decline in revenue was mainly due to lower demand from local and oversea's market in current quarter under review.

The loss before tax that the Group recorded of RM2.9 million as compared to profit before tax of RM14.1 million in the preceding quarter was mainly due to the absence of one-off gain on disposal of properties of RM14.9 million in preceding quarter.

17. Current year prospects

The Malaysia subsidiary undertook a staff retrenchment exercise at management level and operational staff as the sales of key products has been affected by higher raw material prices which cannot be passed through to the consumers and higher freight charges that the Group has been absorbing for the past few years. As a result the Group foresee a much lower sales turnover for its Malaysian operations in year 2025.

The Group's business will continue to face increasing cost pressures from higher raw material prices and the global uncertainties that include geopolitical tensions and persistent inflationary headwinds. Additionally, the impact of the new national minimum wage policy in Malaysia and Indonesia from year 2025 onwards are expected to negatively affect the Group's results.

The Group will nonetheless continue to focus on improving our performance by investing in our brands and people, margins improvement from our products mix, lower input costs and improve operational efficiencies in order to grow the Group's business.
