EXPLANATORY NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

PART A: EXPLANATORY NOTES PURSUANT TO MALAYSIAN FINANCIAL REPORTING STANDARD ("MFRS") 134, INTERIM FINANCIAL REPORTING

1. BASIS OF PREPARATION

The interim financial report have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRS") 134 *Interim Financial Reporting* issued by the Malaysian Accounting Standards Board ("MASB") and Paragraph 9.22 and Appendix 9B of the Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial report should be read in conjunction with the audited financial statements of the Group for the financial year ended 30 June 2020.

The significant accounting policies and method of computation adopted in the interim financial report are consistent with those adopted in the annual financial statements for the financial year ended 30 June 2020 except for the adoption of the following MFRSs:-

MFRS (Issued as at the end of the reporting period)	Effective for annual periods beginning on or after
MFRS 16 Leases	1 January 2019
IC Interpretation 23 Uncertainty over Income Tax Treatments	1 January 2019
Amendments to MFRS 9 Prepayment Features with Negative Compensation	1 January 2019
Amendments to MFRS 119 Plan Amendment, Curtailment or Settlement	1 January 2019
Amendments to MFRS 128 Long-term Interests in Associates and Joint Ventures	1 January 2019
Annual Improvements to MFRS Standards 2015 – 2017 Cycle	1 January 2019

The adoption of the above MFRSs did not result in any significant changes in the accounting policies of the Group except as follows:-

MFRS 16 Leases

MFRS 16, which replaces MFRS 117 Leases and other related interpretations, eliminates the distinction between finance and operating leases for lessees. It introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments.

The Group adopted MFRS 16 on 1 July 2019 with any cumulative effect of initial application recognised at that date without restating the comparative information presented under MFRS 117.

2. SEASONALITY OR CYCLICALITY OF OPERATIONS

The business operations of the Group were not materially affected by any seasonal or cyclical factor.

3. Unusual Items Due to Their Nature, Size or Incidence

On 18 March, 2020, the Malaysian Government had imposed a Movement Control Order ("MCO") in view of the Covid-19 pandemic. This MCO measure has not significantly affected the Group as we have obtained the approval from the Ministry of International Trade and Industry ("MITI") of Malaysia to continue to operate during this period with certain conditions, which we have been observing in our workplace.

On 28 April, 2020, MITI has further announced to allow companies with earlier approval to operate during the MCO period to increase its operating capacity to 100% without limitation on operating hours beginning 29 April, 2020.

During the current interim period, there were no unusual items affecting assets, liabilities, equity, net income or cash flows.

4. SIGNIFICANT ESTIMATES AND CHANGES IN ESTIMATES

There were no changes in estimates of amounts reported in prior interim period of the current financial year or changes in estimates of amounts reported in prior financial year.

9. CHANGES IN COMPOSITION

On 1 June, 2020, the Company invested and paid RM70.00 for 70 ordinary shares, constituting 70% equity interest in RGT Industries Sdn Bhd ("RISB"), a company incorporated in Malaysia with an issued share capital of RM100.00 comprising 100 ordinary shares.

Subsequently, the Company has on 18 June 2020 further subscribed additional 699,930 ordinary shares at an issue price of RM1.00 each in the capital of RISB by way of a cash consideration of RM699,930.00. In consequent thereto, the total investment of the Company in RISB has become 700,000 ordinary shares, which represents 70% of the total number of issued shares in RISB.

The rationale to invest in RISB is to provide the Company with opportunity for expansion into the business of precision spray painting services under a controlled cleanroom environment with strategic focus on, but not limited to Hygiene Care and Medical products.

This new business represents a good synergistic fit as it enables greater strategic vertical integration of Rapid Growth Technology Sdn Bhd ("RGTSB")'s value chain process. In addition, a significant portion of the production capacity will be utilized to service our customers' strong ongoing demand for our hygiene care products.

There were no other significant changes in the composition of the Group during the current quarter under review.

10. CONTINGENCIES

There were no significant changes in contingent assets or liabilities since 30 June 2020.

11. SUBSEQUENT EVENTS

12. SIGNIFICANT RELATED PARTY TRANSACTIONS

There were no significant related party transactions during the current interim period.

13. DERIVATIVES

Forward exchange contracts - at fair value

- Current asset

- Current liabilities

(5)

Forward exchange contracts are used to hedge the exposure to currency risk. The Group does not apply hedge accounting. As at 30 June 2020, the Group had contracts with financial institutions due within 1 year to buy USD139,440 and sell USD100,000 at contractual forward rates.

EXPLANATORY NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

13. DERIVATIVES (CONT'D)

The fair values of forward exchange contracts were quoted by the financial institutions, which normally measured the fair values using present value technique by discounting the differences between contractual forward prices and observable current market forward prices using risk-free interest rate (i.e. Level 2).

Fair Value Changes of Financial Liabilities

The Group does not remeasure its financial liabilities at fair value after the initial recognition.

Fair Value

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The inputs to valuation techniques used to measure fair value are categorised into the following levels of fair value hierarchy:-

- (i) Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- (ii) Level 2 inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- (iii) Level 3 unobservable inputs for the asset or liability.

Financial assets and financial liabilities

The carrying amounts of receivables, cash and cash equivalents, payables and loans and borrowings which are short-term in nature or repayable on demand are reasonable approximations of fair values. The fair values of long-term loans and borrowings are measured using present value technique by discounting the expected future cash flows using observable current market interest rates for similar liabilities (i.e. Level 2).

The fair values of forward exchange contracts are measured using present value technique by discounting the differences between contractual forward prices and observable current market forward prices using risk-free interest rate (i.e. Level 2).

There were no transfers between levels of fair value hierarchy during the current interim period.

14. REVIEW OF PERFORMANCE

Current Quarter (Q4'20) vs Corresponding Preceding Quarter (Q4'19)

	Current quarter ended 30.06.2020	Correspondin preceding quarter ended 30.06.2019	Variance	
	RM'000	RM'000	RM'000	%
Revenue	26,330	19,060	7,270	38%
Profit before tax	4,603	3,213	1,390	43%
Profit for the financial period	3,535	2,396	1,139	48%
Profit attributable to owners of the Company	2,137	1,565	572	37%

The Group earned revenue of RM26.33 million compared to the corresponding preceding quarter of RM19.06 million. This is an increase of RM7.27 million or 38% driven by the surge in demand for hygiene care products from our customers arising from the outbreak and spread of Covid-19.

Whilst the Covid-19 pandemic has led to a surge in our order book, it also had two major implications for the Group's operations. Since the beginning of this quarter, factories were allowed to operate at only 50% manpower. This is in compliance with the Movement Control Order (MCO) as legislated by the Malaysian Government. As a result of the necessary safety precaution measures stated above, the Group experienced significant backlog in the fulfilment of sales orders. Revenue would have been higher had the Group been able to operate at full capacity.

The Covid-19 pandemic has also had an impact on driving up production cost and general expenses were higher for this quarter compared to the preceding quarter as the Group had to incur additional expenses such as staff attendance incentives, meal allowance and personal protective care expenses such as face masks, face shield and sanitizers which amounted to approximately RM300,000. During the quarter, there is also a one-off charge of approximately RM574,000 in professional fees incurred in relation to the corporate exercise to acquire the balance 40% stake in RGTSB.

Nevertheless, Profit Before Tax increased by 43% from RM3.21 million to RM4.60 million, compared to preceding guarter.

14. REVIEW OF PERFORMANCE (CONT'D)

Current Cumulative Period (12M YTD'20) vs Corresponding Preceding Cumulative Period (12M YTD'19)

Profit attributable to owners of the Company	4,971	6,086	(1,115)	-18%

For the full financial year ended 30 June 2020, the Group reported a revenue of RM77.49 million for this financial year compared to the corresponding preceding year of RM94.52 million. This decrease of RM17.03 million or 18% is mainly due to decline in export sales to one of our customers in United States of America due to overstocking at their premises.

In line with the lower Group Revenue, Profit Before Tax fell 32% or RM4.70 million from RM14.73 million in the preceding year, to RM10.03 million for the current year.

Current quarter (Q4'20) vs Immediate Preceding Quarter (Q3'20)

	Current Quarter Ended 30.06.2020 RM'000	Immediate Preceding Quarter Ended 31.03.2020 RM'000	Varia RM'000	nce %

Profit for the financial period	3,535	1,102	2,433	221%
Profit attributable to owners of the Company	2,137	610	1,527	250%

The Group revenue of RM26.33 million compared to the preceding quarter of RM15.40 million. This is an increase of RM10.93 million or 71% driven by the surge in demand for hygiene care products from our customers.

Despite the higher production cost, general expense due to a one-off charge of professional fees of RM574,000 and the additional expenses such as staff attendance incentives, meal allowance and personal protective care expenses such as face masks, face shield and sanitizers, the Group managed to record a hike in the Profit before tax by 227% from RM1.41 million to RM4.60 million, compared to preceding quarter.

15. COMMENTARY ON PROSPECT

Despite the economic challenges caused by the US-China trade war and Covid-19 pandemic, the Group is experiencing strong demand for its Hygiene Care Products which are widely used to prevent and control the spread of infectious diseases, including the Covid-19 pandemic.

As a result of strong sales orders received from our customers in the United States of America and Europe, the Group experienced significant backlog in the fulfilment of sales orders during this quarter. New production lines and machineries were added in this quarter to increase its production capacity to cater for this backlog and future sales. However, with new customers and additional products in the pipeline, the Group is working towards installing more production lines and machineries in an effort to increase its production capacity to meet the demand for our products.

Upon acquisition of the adjacent factory is completed in September 2020, the Group will commence with the expansion and will eventually have double the current production floor and warehousing space. This will cater well to meet future demand growth from not only our existing and new customers but also from new products developed by our internal Research and Development Department. We expect to complete the expansion in stages with the final completion of the production floor by the 30 June 2021.
