On 2 September 2014, MASB has announced that TEs shall be required to apply the MFRS Framework for annual periods beginning on or after 1 January 2017.

The Group and the Company being TEs have availed themselves of this transitional arrangement and will continue to apply FRSs in the preparation of its financial statements. ## B EXPLANATORY NOTES IN COMPLIANCE WITH LISTING REQUIREMENTS OF THE BURSA SECURITIES

#### **B1.** Review of the Performance

(a) Performance of the current quarter against the preceding year corresponding quarter

For the current quarter under review, the Group recorded revenue and profit before tax of RM23.367 million and RM8.549 million respectively, representing a 48.6% decline from previous year's corresponding quarter revenue of RM45.446 million and profit before tax 43.8% from RM15.201 million.

The performance of the Group's 2 main operating segments was as follows:

### Property Development

The property development segment saw a decrease of 51.3% in revenue to RM20.993 million, compared to RM43.121 million previously; whilst the segment's profit before tax declined 64.9% to RM8.897 million, from RM14.853 million previously. The decrease was in line with fewer launches of residential and industrial properties as property buyers faced more stringent evaluations for end-financing offered by financial institutions.

#### Property Management

The property management segment registered 3.7% increase in rental revenue at RM2.096 million during the quarter under review, compared to previous corresponding quarter's RM2.022 million, whilst this segment's profit before tax increased by 2.7% to RM0.952 million, as compared to RM0.922 previously. The improvement was resulted from the better occupancy rate.

## (b) Performance of the current period against the preceding corresponding period

For the current financial period to date, the Group recorded a revenue of RM60.919 million and profit before tax of RM17.684 million, versus revenue of RM114.974 million and profit before tax of RM32.502 million of the preceding corresponding financial period.

#### Property Development

The fewer launches of residential and industrial properties due to the financial institution's stringent control of end-financing to property buyers led the property development segment's revenue to decrease by 50.5% to RM53.726 million from RM108.566 million previously. In tandem with this, profit before tax declined 48.8% to RM15.859 million, compared to previous corresponding financial period's RM30.954 million.

#### Property Management

The improved occupancy rate enabled the property management segment to register 10.7% higher rental revenue of RM6.243 million, compared to RM5.642 million of the previous corresponding financial period. Profit before tax increased 38.1% to RM3.054 million from RM2.212 million previously.

#### B2. Comparison with Immediate Preceding Quarter's Results

Compared to the preceding quarter's results ended 30 June 2014, the Group's revenue recorded 29.1% higher revenue, from RM18.102 million to RM23.367 million, as a result of positive buyer response for our Industrial Park.

Correspondingly, the Group recorded 95.7% higher profit before tax to RM8.549 million for the current quarter under review, compared to the preceding quarter's RM4.369 million.

#### B3. Prospects

The property sector is anticipated to be challenging for the rest of 2014. Nonetheless, the Group will continue to time its launches appropriately and align its property development offerings to market demand.
